FAYVOR LAD ranks third in the breed for milk production, and of these three top milk sires, *FAYVOR LAD* is the only one to be plus across on the udder traits! The Fayvor Lad daughters have extremely nice fore udder attachments, good rear udders and exceptional center support. In addition, they have great feet and legs. Use Fayvor Lad to sire outstanding production from beautiful udders.

Here's how FAYVOR LAD ranks in the breed:

* 10th - PTI (+170)
* 10th - PD$ (+94)
* 3rd - PDM (+983)
* 10th - PDT (+0.6)
* 9th - Rear Legs (P0.2)
* 2nd - Fore Udder (+1.5)
* 7th - Rear Udder Height (+0.7)
* 7th - Center Support (+0.9)

LAND OF LIVING

There Are Lots Of Ways To Measure The Value Of Our 95 Milking Guernseys

1. 56 percent of the cows in the herd are over 14,000M ME.
2. Nearly 60 percent of the cows are Very Good or higher.
3. Approximately 50 percent of the cows have 13-month calving intervals.
4. 45 percent of the heifers calve at 2-2 years of age or under.
5. The percent of cows with 5.0% test or higher is 21.
6. 40 percent of our Guernseys test 3.5% for protein or better.
7. Calving ease--38 out of 40 were unassisted.
8. Cows that are eight years or older make up 14 percent of the herd.
9. 75 percent of our herd has reached the ideal size for a Guernsey (55 inches and 1,300 pounds at maturity).
10. Only two percent of the cows have been treated for mastitis during the last year.
11. Our culling rate is nine percent.

We believe that you cannot measure your dairy operation by pounds of milk alone. While milk production is an important factor to consider, so are the other 10 listed factors. Perhaps a good balance can lead to a more commercially competitive herd.

Herdsman: Mark and Sara Hoewischer

John and Bonnie say, "It was interesting for us to do this little bit of homework."

Chedco Farm

We regretfully announce that in the early morning hours of Sunday, June 7, the main house attached to the barn at Chedco Farm was destroyed by fire. Through the fine work of the Berlin Fire Department and others, the barns and the entire herd escaped unharmed. The farm is functioning normally.

The fire has been a psychological setback for us however and we have decided to sell the entire herd.

The next issue of this publication will inform you of the proposed plan of selling the herd. In the meantime, information may be obtained as follows: Write Barry O'Brien, % O'Brien And Company, 5 Avenue D, Hopkinton, Massachusetts 01748, telephone (617) 435-9046, days or (617) 369-8008 evenings.

ABOUT THE COVER

This All-American scene on the May/June issue cover features liberty and agriculture... the strength of the nation. Lady Liberty was photographed one year ago just after her multi-million dollar makeover. The Guernseys are part of the Lindenhof operation owned by K. D. and Else Linde, and their son Axel and daughter Millie Widmann. The heifers were also pictured last summer. A photo lab then merged the two different settings. Photographer Dieter Krieg, publisher and editor of the *Pennsylvania Farmshine Magazine*, printed this photo in the July 4, 1986 edition of the *Farmshine*.

Subscription Rates: $10 (US) per year, $25 (US) for three years in the United States and Canada; $11 (US) outside United States and Canada; $30 first class mail in United States; foreign airmail subscription rates on request. Microfilm subscriptions available.

Postmaster: Send address changes to Guernsey Breeders' Journal, Carol Curry, Circulation Manager, 2105-J South Hamilton Road, P.O. Box 27410, Columbus, OH 43227. When changing your subscription to a new address please give the old address and zip code as well as the new.

Second class postage paid at Columbus, OH 43227 and at additional mailing offices.

Guernsey Breeders' Journal (ISSN 0017-5110) is published annually except January, May and July (on February 5, March 25, April 25, June 25, August 5, September 25, October 25, November 25 and December 25).

Closing date for advertising and editorial information is 55 days preceding publication. Each issue is mailed approximately 10 days prior to publication date. Advertising rates upon request. Mail to Guernsey Breeders' Journal, 2105-J South Hamilton Road, P.O. Box 27410, Columbus, OH 43227. (614) 864-2409.

Does More Mean Better?

By Andrew Novakovic

Objective 1: Get as much as we need and pay no more than we must to be competitive.

Objective 2: Make as much product as we can and do it as cheaply as possible.

This pretty much sums up the strategy of most dairy processors. Over the years, our industry has shown little change in its basic attitudes toward milk quality, composition, and pricing or in its practices and strategies for milk procurement and processing. Farmers and processors alike have a commodity attitude toward their products and how they are marketed. This commodity doctrine is: quality is no substitute for quantity.

Quite a few buyers do have quality and/or component pricing plans. However, most involve token payments and probably were initiated as part of a competitive pricing strategy aimed at maintaining or expanding a plant's milk supply. By and large, once the minimum safety and quality standards are met, the typical industry attitude is: milk is milk.

The dairy industy tends to be volume-oriented. Financially stressed farmers put on more cows and hope that net income will increase with total income. The farm community is spending large sums of money to promote dairy products, but its common strategy for marketing its product consists of little more than putting the milk cans at the end of the driveway. But then, why should farmers be concerned about anything besides volume, when that is consistent with the signal they get from milk buyers?

Processors of all stripes put keeping the plant full as the ultimate priority. When this is the only way we see to keep returns up, procurement strategy is simply to provide all the milk the plant needs. Maybe we ought to be more discriminating in what kind of milk we pick up—what is its quality and composition, what does it cost to physically get it, and what does it do for me in the plant, besides take up space? For farmers and processors, the common attitude remains: milk is milk, and more milk is better.

This attitude stops us from thinking about such things as how to increase net returns by increasing the price we can get for our product, or by lowering average costs with efficiency gains that might occur with or even because of lower plant throughput. The cheese industry provides the classic example. Higher-quality milk having higher casein content can yield more cheese than average milk. Higher yields mean lower average costs and may mean a better cheese, and a better product at least opens the door to product differentiation and higher returns.

When we talk about new technologies, like ultrafiltration, we focus on how they can be used to produce more of the same products at a lower cost. The possibilities of exploiting new technologies to produce new products that might open up new markets are barely discussed. New products will likely be lower-volume products. But, they also will be the source of much of the growth in commercial sales, and will tend to be higher-margin products that contribute more than proportionately to total profits.

The "more-is-better" philosophy will have to give ground to a new doctrine if these market potentials are going to be fulfilled. When we start showing a greater willingness to establish more rigorous standards, more meaningful incentives, and a more discriminating procurement and processing strategy that really pays attention to the composition and quality of milk and dairy products, that will be a sign that we are starting to believe that quality can be a substitute for quantity. More is not necessarily better. Better is better.

Written by Andrew Novakovic, an associate dairy economics professor at Cornell University, this article is reprinted with permission from the January 1987 Dairy Foods Magazine.

Journal Hires Summer Intern

Shelly A. Keller of Muscoda, Wisconsin has joined the *Journal* staff as a summer intern. Starting June 1, Keller will assist with advertising, feature stories, magazine production and promotional efforts of the American Guernsey Cattle Club.

Currently a senior at the University of Wisconsin-Madison, she is completing her Bachelor of Science degree in agricultural journalism with a specialty in dairy science. Her activities at the university include editor of the Badger NAMA Newsletter and the Association of Women in Agriculture Newsletter. She is an active member of the Badger Dairy Club and serves as the club's public relations officer.

Keller was past chairman of the National Collegiate Ag Women's Conference public relations committee and had a communications internship with the Wisconsin DHI Cooperative. A member of the second-placed collegiate dairy judging team at the 1986 Pennsylvania All-American Dairy Judging Contest in Harrisburg, Keller was sixth-high individual in that contest. An Alpha Gamma Rho Rhomate, Dean's Honor list student and recipient of the College of Agriculture and Life Science Scholarship, she was also named the UDIA Dairy Shrine Scholarship winner.

This former National Distinguished Holstein Girl is the daughter of Linda and Virgil Keller of Kelline Holsteins in Muscoda, Wisconsin. She will work out of the AGCC headquarters office in Columbus, Ohio.

Shelly Keller *Sandi Stern*

Stern Returns

Sandi Stern of Highland, Maryland has rejoined the *Journal* staff as assistant editor and assistant information director. Since April 27, she has been involved with magazine production and promotional efforts of the American Guernsey Cattle Club.

Stern completed a Bachelor of Science degree in dairy science from Virginia Polytechnic Institute and State University this March. While at the university, Stern was active in the Virginia Tech Dairy Club, the American Dairy Science Association and the Alpha Gamma Rho Rhomates.

A former South Central Maryland Dairy Princess and Maryland Jersey Queen, Stern spent six months during 1986 working with Journal staff as an intern. While in Columbus, she authored a manual for computer use in the office, put together numerous ads, wrote the Valley Set feature in the November 1986 *Journal* and assisted with various other Information Department tasks including attendance at two national shows.

This former 4-Her has experience with directing publicity campaigns for the Virginia Tech Dairy Club and has coordinated workshops and developed both radio and television broadcasts to promote the dairy industry, on both county and state levels.

Stern has had work experience in research analysis, assisting with lactation and nutrition management studies through data entry and analysis at Virginia Tech. In addition, she spent three months as a teaching assistant instructing students in the retrieval and use of computerized DHI information.

Stern is the daughter of Melvin and Susan Stern of Highland, Maryland. She works out of the AGCC office in Columbus, Ohio.

Mid-Atlantic Guernsey Sires

Use MAGS graduates — 1G157 Playboy (PTI +202) and 8G56 Dixie Don ET (PTI +122).

Cavanaugh Joins National DHIA

J.F. Cavanaugh of Columbus, Ohio, who has served as the Executive-Secretary for the AGCC for the past 18 months, has now joined National DHIA as Acting Executive Secretary on an interim basis. Prior to these two positions, he spent 38 years with the American Jersey Cattle Club. Cavanaugh will assist George Gramling, National DHIA director of field services and Phil Dukas, National DHIA director of technical development.

The National DHIA Board has acted to conduct a nationwide search for a permanent Executive Secretary. Nominations and applications should be sent to J.F. Cavanaugh, National DHIA, 3021 East Dublin Granville Road, Columbus, Ohio 43229. The deadline for nominations and applications is July 15, 1987.

At a reorganizational meeting on April 6, 1987, the Board of Directors of National DHIA appointed John Noble, president of New York DHIC, to replace Edwin Fry of Maryland as director from the Northeast Region. Replacing Velmar Green of Michigan for the Northcentral Region is Tom Sammon, president of Minnesota DHIA. Fry and Green had resigned from the board.

H. L. "Doc" Hill of North Carolina was elected Secretary-Treasurer. Hill serves on the Executive Committee, along with President Don Long of Wisconsin, Vice-President Fred Griffith of Washington, and J. Robert Kindig of Pennsylvania. Douglas Runyon of Texas was appointed to serve on the NCDHIP Policy Board along with these four individuals.

Guernsey Directory A Reality

At its inception, the 1987-1988 Guernsey Directory was intended to provide quick, easy access to Guernsey breeders and enthusiasts - a Who's Who for the Guernsey Breed.

A total of 540 dairymen, businesses and universities reserved space in the Guernsey Directory. The greatest participation by a state was Wisconsin with 108 listings, followed by Minnesota with 57 and Ohio with 55. Those who purchased listings did so for the potential buyer who wants to invest in Guernseys, for the milk marketing cooperative that wants to find a load of high-solids milk for a cheese plant or for the Guernsey enthusiast who may be traveling through an area and want to visit nearby Guernsey farms.

It is important to recognize those who have helped with the tremendous task of putting together this first national directory. Many thanks to Les Peckham and Martha Turley. Their efforts brought in over one-quarter of the total reservations.

This Guernsey Directory was patterned after the Jersey Directory, which is now on its third edition. The *Jersey Journal* staff provided the maps to show farm locations and Editor Cherie Lei Bayer was a great resource person and lent her guidance to this project.

An insert in the May/June issue of the *Guernsey Breeders' Journal*, the 1987-1988 Guernsey Directory is also available, upon request. Write or call the American Guernsey Cattle Club Information Depart-

1986 Milk Flow Queens

The following list of 100 cows was compiled from DHIR records made official during 1986. The Milk Flow Queen designation recognizes the highest mature-equivalent, 305-day milk records made on two-time daily milking. Only records of at least 270 days but not more than 365 days in length were considered.

Visitors Always Welcome

National Production Award Winners

A world-record holder, two animals registered through the AGCC's Genetic Recovery Program and one of the highest-selling females in 1986 are featured in this year's edition of National Production Award Winners. These four outstanding individuals thus give a glimpse not only of the recent history of the breed, but also of its promising future.

Royal Paulson Champion, Northlyn Dariboy Deb, Marfred Ron Nadia and Mi Valley Choice Schatsie and their current owners were all recognized at the annual AGCC meeting in Pittsburgh, Pennsylvania in May.

Liebers Trophy
New England GBA Trophy

For the first time in the history of these awards, both have been won by the same cow with two different owners. The New England GBA Trophy recognizes the highest 305-day, two-time, mature-equivalent milk record in the breed for the year. Established by Mr. and Mrs. Otto Liebers of Lincoln, Nebraska in 1949, the Liebers Trophy honors the living cow with the highest lifetime milk production credits to date.

The 1986 recipient of these honors is world milk record holder Royal Paulson Champion. Kenneth Hipp of Saluda, South Carolina bred this Housleys J Champion granddaughter. Todd Hipp of Saluda owned her when she completed her 305-day record of 35,230M 3.5% 1,237F 3.1% 1,083P to win the 13th annual New England GBA Trophy.

The Royal Paulson Champion Syndicate of Winston-Salem, North Carolina purchased this 88-point cow and owned her when she finished her 10-year-old lactation with 40,240M 3.6% 1,440F 3.1% 1,263P in 365 days. Her seven-record Modified Contempory Deviation (MCD) is +8,085M +232F +300P while her January cow index for milk is +645. Producing an average of 88 pounds of milk and over three pounds of butterfat per day, she has lifetime totals of 247,232M 9,309F in 2,809 days. This Liebers Trophy winner was 20,000 pounds ahead of the next closest competitor for the award.

Her latest record makes "Champion" the first cow in the Guernsey breed to milk over 40,000 pounds of milk in 365 days. Other breed firsts for this individual include producing over 30,000M in 305 days at six years, three months of age and producing over 35,000M in 305 days last year.

Champion's descendants include three daughters. B Maverick Jewel made 3-08 305D 22,840M 4.3% 990F 3.5% 799P while Hipps Royal Buttercup finished with 25,110M 1,003F 859P in 296 days as a senior three-year-old cow. Her other daughter, by Idle Neer Rondas Hornet, is in her first lactation. All three individuals are Very Good.

Valley Set Award

Valley Set Farm, owned by Ronald Wenger and Family of Goshen, Indiana, is sponsoring an award for the cow with the highest living lifetime butterfat production to date. The first winner of this award is Northlyn Dariboy Deb. Sired by a Western Glow Darimost son, this Denny Dale Beautiful Dariboy daughter was originally registered in the American Guernsey Cattle Club's Provisional Registry (PR) Program, the forerunner of the Genetic Recovery (GR) Program. With five records over 800 pounds of butterfat, she has 9,061F 190,850M in 3,633 days.

James E. Assink of Lynden, Washington bred this 17-year-old cow. Her MCD on 12 records is +2,390M +110F +62P. At 17 years, one month of age this cow was appraised 91 points. Her best record was 10 years ago with 19,150M 4.5% 860F in 305 days.

Three Western Glow Wistar Premier daughters out of this matriarch are all high testers. Scored 88 points, Northlyn Premier Ardel has 7-06 305D 15,340M 5.8% 893F. The other two Premier daughters have records up to 790 pounds of butterfat.

Nyala-Bedford Trophy

The high seller at the 1986 North American Showcase Sale at $12,000, Marfred Ron Nadia, is making news again. Her actual 305-day lactation of 23,440M 5.0% 1,173F as a senior yearling converts to 28,831M 1,419F on a mature-equivalent basis to earn her the Nyala-Bedford Trophy. This award, given in memory of F. T. Bedford of Nyala Farm in Connecticut, is bestowed annually on the two-year-old cow with the highest DHIR mature-equivalent statistics for milk produced in over 270 and not more than 365 days.

In 365 days, this Ron daughter made 26,830M 5.0% 1,329F. Her January cow indexes of +1,295M +46F +$146, CIT +2.0 and CPI +299, place her 11th in the breed for CPI. This two-time Excellent cow has a one-record MCD of +12,499M +588F. Her only offspring is a Raemelton Deacons Fashion two-year-old daughter.

Nadia's dam by Hornback Farm Prince Extra made 682F. Her siblings include three brothers and one sister. Their Excellent Olympic View B Maverick dam has records up to 16,040M and 830F in 321 days.

Todd Laesch of Bloomington, Illinois is the recipient of the trophy. Fred T. Mills of Marfred Farm in Saluda, South Carolina bred this national production master which is now owned by the Nadia Syndicate of Clifton Springs, New York.

Tarbell Trophy

Mi Valley Choice Schatsie garnered the Tarbell Trophy and is this year's second national production contest winner to be registered under provisional registry. Number two on the Milk Flow Queen List with 33,091 pounds of milk, 1,718 pounds of butterfat, she wins this award which annually goes to the breed's highest 305D, mature-equivalent butterfat record. The award is given in memory of Gage E. Tarbell.

This Kellogg Minnies Choice daughter made 8-04 365D 33,640M 5.1% 1,723F actual in 1986. Her lifetime totals to date are 141,575 pounds of milk and 6,918 pounds of butterfat in 2,333 days. Her only other record over 1,000 pounds of butterfat was as a junior three-year-old cow.

Ronnie and Toni Ray of Circle R Guernseys in Chowchilla, California purchased this high-testing individual in 1981 from owner/breeder Joseph S. Pierce of Hilmar, California. The only offspring from this cow is a December Dutch Mill Telestars Fayette calf that carries the Circle R prefix.

Royal Paulson Champion

Marfred Ron Nadia

To qualify for these national production awards, animals must be on DHIR test. Contact the AGCC for details.

SAVE 50%

That's right! You can save 50 percent by signing up for Total Performance Evaluation (TPE) or DHIR before the end of July . . . just calculate the total and pay only one-half. Look at what is in store for you at half the cost . . .

Enjoy These Benefits

- Continuous DHIR test with quarterly summaries.
- Appraisal of all first- and second-lactation cows every seven to 10 months (older cows may be scored for $3.50 per cow at the owner's option).
- Substantial discounts on registry applications.
- Complete summary of individual cow trait breakdowns after each appraisal as well as summaries by sire and age groups within herd.
- Listing of all lactations that are 130 percent or more of breed average and of herd appraisal summary in the *Guernsey Breeders' Journal.*
- Both 305-day and 365-day records will automatically be recognized as official for pedigrees, awards and other programs if interested TPE herds enroll on a 365-day option program.
- Complete listing of cow indexes for milking herd twice each year.
- Complimentary USDA/AGCC sire summary subscription (two summaries annually).
- Eligible for national production awards and outstanding herd awards.
- Discounts on official AGCC pedigrees.

Save Money, Too

Under this six-month special program, a 50-cow herd would save as follows . . .

FEES FOR NON-TPE HERDS

DHIR (6 months)
50 cows @ $5 + 2 ..... $125
$10 herd fee + 2 5
Subtotal $130

APPRAISAL (1 appraisal)
All 1st- and 2nd-lactation cows (roughly 50% of herd)
25 cows @ $6 ..... $150

SIRE SUMMARY (1 summary)
One @ $10 ..... $10

COW INDEX PACKAGE (1 summary)
50 cows @ $.50 ..... $25

Six-month Non-TPE Total $315.00

FEES FOR TPE HERDS
50 cows @ $7.50 + 2 ..... $187.50
$10 herd fee + 2 ..... 5.00

Six-Month TPE Total $192.50

SIX-MONTH SAVINGS $122.50
Plus Savings Each Time You Register A Calf!

TPE can help you purchase and merchandise cattle with complete pedigree information and AGCC verification of records. And, you can actively contribute to the breed's data base for accurate sire proofs and cow performance information.

States that will be in the appraisal schedule from July through December are DE, GA, FL, IL, IN, KY, MD, MI, NC, NH, NJ, NY, OH, OR, PA, SC, TN, VA, VT, WA, WI and WV.

Submit this handy coupon today to save money and make extra profit through TPE!

Gold Star Awards

The annual Gold Star Award program of the AGCC recognizes those herds which have performed significantly above national breed averages for both production and type.

To qualify for a Gold Star Breeder certificate, an individual's herd lactation average for 10 or more milking-age females must exceed that of the breed's national average by 15 percent for either milk or butterfat. Eighty percent of the cows considered in the herd's production results must have been appraised for type, with their average final score breed average or better. The award recipient, an active member in good standing at the state and national levels, needs to be the breeder of at least 70 percent of the cows under consideration. In addition, all Guernseys over eight months of age must be registered and certified free of Tuberculosis and Brucellosis.

Gold Star herds are considered using the same criteria, with the exceptions that no minimum percentage of homebred cows is required and the herd lactation average must be at least 25 percent above the breed's national figures.

Double Gold Star recognition is given to breeders and herds which meet the aforementioned qualifications and are members of an organized young Guernsey sire-sampling program.

The 1986 Winners

With five award recipients calling Wisconsin home, that state topped the list of 17 farms in seven states for the second, consecutive year. Two Gold Star Guernsey Breeders and three Double Gold Star Breeders make their home in America's Dairyland. California and Pennsylvania each claim three Double Gold Star Breeders. The other states with more than one notable herd were Oregon and Indiana. South Carolina and Washington were represented by a Gold Star Breeder and a Double Gold Star Breeder, respectively. The 1986 Gold Star Recipients and their credentials follow.

High DHIR Herd Lactation Averages For 1986

Over one-half of the 37 herds that were among the nation's best for milk and butterfat production in 1986 can be found in either California or Wisconsin.

The Nells Glow herd, owned by California native Dennis Nelson from Hilmar, topped the milk category with an average of 18,224M 4.6% 837F ME on 85 cows. In second for milk production last year, the Nells Glow herd realized a 569-pound milk increase to capture the number-one position.

Only 67 pounds of milk separated the top two herds. The runner-up for milk production with 18,177 pounds was Abiqua Acres of Silverton, Oregon. Alan and Barbara Mann managed their 64 cows to an average of 855 pounds of butterfat and started the list of herds for top butterfat production. Just six pounds less than the leader for butterfat production was the Laeschland herd from Curtiss, Wisconsin with 849F on 46 records.

Ten breeders from California and Wisconsin each, qualified for inclusion in the milk and/or butterfat listings. Pennsylvania had six herds for milk and four herds for butterfat represented. Dairies from a total of 14 states were recognized as being among the breed's 30 very best for production.

The mature-equivalent lactation average for those 13,013 Guernseys in 342 herds on DHIR test in 1986 was 13,708 pounds of milk and 626 pounds of butterfat. This average shows an increase of 412 pounds of milk and 26 pounds of butterfat.

The summary of the top 30 herds for milk and the highest 30 herds for butterfat production in 1986 follows.

Top Living Lifetime Producers

This list of top living lifetime producers proves the fact that Guernseys from coast to coast have what it takes to live a long and productive life.

Thirteen cows from nine states filled the top 10 spots for both milk and butterfat production during this annual period ending December 31, 1986. All Guernseys nominated for the Liebers Trophy and Valley Set Award were automatically considered for this honor.

Known as the first cow in the Guernsey breed to produce over 40,000 pounds of milk in 365 days, Royal Paulson Champion topped the milk category. The Royal Paulson Champion Syndicate of North Carolina owns this individual that has produced 247,232 pounds of milk and 9,309 pounds of butterfat to date in 2,809 days. Her butterfat production finishes third on the butterfat register.

From the Evergreen state, Northlyn Dariboy Deb produced over five tons of butterfat to claim the number-one position in the butterfat grouping. With lifetime totals to date of 10,861F and 225,950M, she was the runner-up for lifetime milk production. James Assink of Lynden bred this 17-year-old, 91-point Western Glow Darimost granddaughter that was originally recorded in the AGCC's Provisional Registry program.

Last year's winner, Burgess Farm Acmes Annette owned by Almon C. Burgess of Bradford, Vermont, was second for butterfat with 9,954F and third for milk with 208,620M.

Other cows making an encore appearance on this summary include Valley Set Corp Hildie, Nells Glow Hermes Karen, McDonalds Darimost Posey and B Sunset E J June. Owners of these cows are Ron Wenger of Indiana, Dennis Nelson from California, John Seager of New York and Larry McCabe from Wisconsin, respectfully.

The complete production credentials of the top living lifetime producers follows.

1987 All-American Program

The 34th All-American Contest

Eligibility—To be entered in the All-American Contest, an animal must be a registered Guernsey and (a) have placed in the top 10 of its class in an international, national or other major U.S. show, (b) have placed in the top three of its class at any U.S. show or (c) be owned in the United States and win its class in a qualified show outside of the United States.

Classes—The following are the All-American classes for 1987.

1. Junior Heifer Calf—Born on or after March 1, 1987 and over four months of age.
2. Intermediate Heifer Calf—Born from December 1, 1986 through February 28, 1987.
3. Senior Heifer Calf—Born from September 1, 1986 through November 30, 1986.
4. Summer Yearling Heifer—Born from June 1, 1986 through August 31, 1986.
5. Junior Yearling Heifer—Born from March 1, 1986 through May 31, 1986.
6. Senior Yearling Heifer—Born from September 1, 1985 through February 28, 1986.
7. Junior Two-Year-Old Cow—Born from March 1, 1985 through August 31, 1985.
8. Senior Two-Year-Old Cow—Born from September 1, 1984 through February 29, 1985.
9. Three-Year-Old Cow—Born from September 1, 1983 through August 31, 1984.
10. Four-Year-Old Cow—Born from September 1, 1982 through August 31, 1983.
11. Aged Cow—Born before September 1, 1982.
12. Best Three Females—Group to consist of three females, any age, all to have been bred, all or in part, by their exhibitor and all to be owned, all or in part, by their exhibitor.
13. Junior Best Three Females—Group to consist of three females born on or after September 1, 1985 which have not yet calved. Each must have been bred, all or in part, by its exhibitor and must be owned, all or in part, by its exhibitor.
14. Exhibitor's Herd—Group of five females to consist of two of any age which have calved; two born on or after September 1, 1985 which have not yet calved; and one of any age. Three of these females must have been bred, all or in part, by the exhibitor. All must be owned, all or in part, by the exhibitor.

Entry Fee—A fee of $20 per entry (each animal or group) is required. Those animals nominated for Junior All-American will automatically be considered for All-American competition at no extra charge. The owner will receive a complimentary AGCC Performance Pedigree for each entry.

Note: For group class entries, head-to-tail composite photographs are to be supplied by the exhibitor.

Entries—Entry forms may be obtained from The AGCC, P.O. Box 27410, Columbus, Ohio 43227. The exhibitor must submit a completed entry form and three photographs of each entry to The AGCC by **November 20, 1987** to qualify for the contest. All placings at AGCC-approved shows must be included on the entry form by the exhibitor or the animal will be disqualified. For group classes list only those shows at which that exact group was shown. Photographs must be taken of the animal during the 1987 calendar year and should represent the animal in a stage of development as nearly comparable to the show ring appearance as possible. Five by seven-inch, black and white, glossy pictures are preferred. For entries for which the ownership is recorded with a Guernsey Herd Register other than the AGCC, a copy of that animal(s) registration certificate must also accompany the application.

Judging—A committee of the three judges of the national Guernsey shows will select the six top entries in each class as All-American nominees. Each national show class winner will automatically be nominated for All-American if the entry fee is paid and entry is received in order. A selection committee consisting of the official judges of the AGCC-Approved Guernsey shows will choose the All-Americans. Pictures and placings of the six nominees in each class will be sent to each Selection Committee member. The judges will vote individually by mail, giving first, second and third choices in each class. A Selection Committee member may not vote in any class in which he has a pecuniary interest in one of the six nominees or if one of the six nominees comes from the farm by whom he is employed. Each first-place vote shall count five points, second place shall count three points and third place shall count one point. The awards will be determined by simple arithmetic by The AGCC. The class entries receiving the highest number of votes shall be named All-American and those receiving the second highest vote total shall be designated Reserve All-American. The rating of Honorable Mention All-American will be given to all entries receiving a total of eight or more points.

Judging Contest—The *Guernsey Breeders' Journal* will conduct a judging contest using the six All-American nominees in each class. Entrants must be at least nine years of age.

The 14th Junior All-American Contest

Eligibility—AGCC junior members born from January 1, 1966 through December 31, 1977 only may enter the Junior All-American Contest. The animal entered must be a registered Guernsey that has placed in the top six of its class at any junior show in 1987. The ownership of the entry shall be recorded in the name of AGCC junior member(s) only by January 1, 1987 for milking-age entries or by July 1, 1987 for heifers.

Classes—The classes will be the same as classes one through 11 in the All-American Contest. There must be a minimum of three entries in a class, however, before it becomes an official part of the Junior All-American program.

Entry Fee—A fee of $20 per entry is required. Those animals nominated for Junior All-American will automatically be considered for All-American competition at no extra charge. The owner will receive a complimentary AGCC Performance Pedigree for each entry.

Entries—Entry forms may be obtained from The AGCC, P.O. Box 27410, Columbus, Ohio 43227. The Junior must submit a completed **yellow Junior** entry form only, and three photographs of each entry to The AGCC by **November 20, 1987** to qualify for the contest. All placings at AGCC-approved shows must be included on the entry form by the Junior or the entry will be disqualified. Photograph must be taken of the animal during the 1987 calendar year and should represent the animal in a stage of development as nearly comparable to show-ring appearance as possible. Five by seven-inch, black and white, glossy pictures are preferred. All Junior All-American nominees will automatically be entered in the All-American Contest. A junior entry in both contests should carry the same exhibitor name.

Judging—The judging will be handled in the same manner as the All-American Contest. Each national junior show class winner will automatically be nominated for Junior All-American if the entry fee is paid and entry is received in order.

Plan Now to Picture Your Winners and Compete with the Best!

Plus 1,000-Pound Herds

During 1986, 44 Guernsey herds increased their milk production by more than 1,000 pounds. This is the second-highest number of herds that have shown a plus 1,000-pound increase since this list was started nine years ago.

Clemson University in Clemson, South Carolina ended the year with a 305-day, mature-equivalent average of 15,286M 4.8% 739F on 25 records. This resulted in the nation's largest herd production increase of +2,570 pounds of milk. Clemson University also increased 141 pounds in butterfat production, the biggest difference noticed during last year.

The 1986 herd average on the 40 cows at Zirkmead Guernseys, owned by David and Patty Zirk of Elroy, Wisconsin, increase 2,287 pounds to place second on the list. Their December herd average was 14,295M 4.6% 653F.

Two other dairies in the country achieved remarkable increases when 1985 and 1986 herd averages were compared. Joseph W. and Wilda S. Ferris of New Wilmington, Pennsylvania ended the year with 15,212M 4.3% 660F on 54 lactations thereby increasing +2,097 pounds of milk. The 42 cows at Martin Oaks Farm completed the year with 667 pounds of butterfat, resulting in a 109-pound fat increase.

Allan Bentley of Iowa, James Heizer from Virginia, Thomas and Mary Lurvey of Wisconsin, Kenton Sherman from Ohio and Chris Skaar of Minnesota, all repeated their performance of a plus 1,000-pound herd for the second consecutive year.

America's Dairyland had eight herds with over a 1,000-pound boost in milk production. Six herds in Minnesota and five groups in South Carolina also earned this recognition.

When comparing year-end figures, two states increased their herd averages more than 1,000 pounds. The four herds on DHIR in Kentucky have a state lactation average of 14,135M 4.4% 625F showing a +1,535M and +61F rise. Oregon breeders stepped-up production by 1,181 pounds of milk to an eight-herd average of 15,621M +51F. Wisconsin, California, South Carolina and Minnesota also increased milk production, on a state average basis, of more than 740 pounds.

Following is a list of the 44 farms identified as plus 1,000-pound herds for 1986.

			Increase		1986				1985

Guernsey Demand Remains High

1986 Public Auction Sale Review

Nearly 25 percent of the Guernsey sales managed in 1986 averaged more than $1,200. The number of auctions exceeding this sale average has increased by 50 percent within the last year.

Total head of cattle sold decreased in all categories except unborn ETs, which have more than doubled compared to a year ago. Even though more embryos crossed the auction block in 1986 compared to any other year in Guernsey history, the average sale figure on the 12 embryos sold during 1986 increased more than $1,000 to a new high of $3,483.33.

The Olympic View Invitational held in Lynden, Washington lead the way for highest sale average with $3,055 on 30 head. A Guernsey Marketing Service managed sale came in next with the North American Showcase Sale in Louisville, Kentucky averaging $2,792.24 on 29 head. The popular National Convention and Heifer Sales in Peoria, Illinois commanded a $2,557.76 average for the 58 head changing ownership titles. This sale was managed by the Illinois Guernsey Breeders' Association. Three sales in 1986 exceeded the $2,500-average mark, which reflects an increase of one sale over this milestone as compared to 1985 figures.

High-Selling Individuals

Representing one of the most prestigious cow families in the Guernsey breed, Yellow Creek Telestar Bouquet sold for $17,000 in the Olympic View Invitational Sale last August. This figure set the record in 1986 for high seller of the year. A Maurana Wis Telestar daughter, she completed three generations of Excellents and sold due in December to Welcome Choice Admiral. Ranked 59th in the breed for Cow Performance Index (CPI) at that time, she had lactations to 3-4 341D 18,360M 4.8% 874F 3.5% 639P and cow indexes of +916M +33F +$109 +$101CY, CIT +1.2, CPI +206. Appraised 92 points, her dam has credits of 6-00 365D 3X 37,860M* 4.1% 1,537F* giving her a Modified Contemporary Deviation (MCD) of +11,956M +390F +244P. Her full sister has earned national class-leading status and was appraised 91 points. These two cows are backed by the famed Yellow Creek Noble Rosebloom (EX-91) who produced records to 24,750 pounds of milk and 1,012 pounds of butterfat. Bio Genetics of Minneapolis, Minnesota purchased this four-year-old cow from Truman Weaver of Goshen, Indiana.

A February 1986 full sister to the Olympic View Sale topper, set the record for open heifers crossing the auction block when she sold for $6,800. Her pedigree indexes read +592M +27F +$81 +$80CY, CPI +141 while her genetic indexes were +1,092M +40F +$132CY, CIT +1.1, CPI +239. Myron and Mark Erdman of Chenoa, Illinois were listed as the new owners of this National Convention and Heifer Sales consignment from Yellow Creek Farm of Indiana.

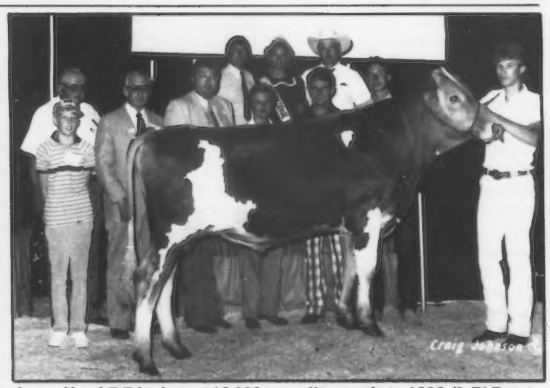
Idle Neer Hornet daughter, Marfred Ron Nadia changed hands again, this time selling for $12,000 in the North American Showcase Sale last November. Todd Laesch of Bloomington, Illinois, who purchased "Nadia" in 1985 at the Golden Genetic Classic Sale, Act 1, was listed as consignor of this Excellent three-year-old cow. Her July 1986 cow indexes of +1,341M +50F +$162 +$148CY, CIT +2.1, CPI +313 ranked her number eight in the breed for CPI. She boasted a senior yearling record of 365D 26,830M 5.0% 1,329F 3.6% 962P. The Nadia Syndicate from Clifton Springs, New York placed the final bid on this AI-contract cow. Her 84-point Hornback Farm Prince Extra dam made 711F while the next dam completed two records over 800F and was appraised 91 points.

Tied at this same five-figure amount was Karla Halbert's consignment from Union, Missouri to the National Convention and Heifer Sales. Sired by Dutch Mill Telestars Fayette, Arrow Head TF Linkon sold to Tri-State Breeders and the Linkon Syndicate of Westby, Wisconsin for $12,000 to set the day's high price. This deep-pedigreed individual was backed with a pedigree index of +382M +$43, PDT +1.8 PTI +111 and genetic indexes of +445M +21F +$61, PDT +2.5, PTI +157. This yearling bull's All-American dam, Dewberry Farms Fayvors Likable was 93 points with a junior four-year-old record of 22,270 pounds of milk and 1,081 pounds of butterfat. The next two dams are Excellent and the grandam has lifetime totals of 116,320M 5.0% 5,778F.

A syndicate from Bloomington, Illinois purchased the highest-priced unborn ET in 1986 at the National Convention and Heifer Sales. Med O Bloom Choice Faithful's Fayette ET to be born in September with genetic indexes of +1,128M +43F +$138, PDT +2.3, PTI +277 was bought for $9,000 from Daniel Brubaker of Dayton, Virginia. His 93-point Choice dam was the high-selling Guernsey at public auction in 1985 at $40,000 while his brother, Myown Farout, was the high-selling male at public auction in 1984 at $7,500. Number two in the breed for CPI in the July 1986 run, she has a national class-leading record of 3-6 365D 27,260M 4.7% 1,287F 3.6% 978P.

The Convention sales featured the 1986 top-selling bred heifer. The first-place junior yearling at the Texas State Fair in 1985, Mungles

Yellow Creek Telestar Bouquet - $17,500, high-selling Guernsey at public auction in 1986. (L-R) Truman Weaver, Raymond Orisio, Doug Wilson, Marvin VanMersbergen.



Arrow Head T F Linkon - $12,000 top selling male in 1986. (L-R) Brent Clements, George Fowler Sr., E. R. Berousek, Dale Staupe, Linda and Dave Cochard, Rick Sanborn, Mike Dueringer. Box: Bob Griggs, Tina Larson and Gary Estes.

Table 1. Summary of All Guernseys Sold at Public Auction In 1986 With results submitted To the *Guernsey Breeders' Journal*

No. Head	Total	Average
588 Cows (21 SWDs)	$ 661,195.00	$1,124.48
348 Bred Heifers	330,175.00	948.78
401 Open Heifers	269,230.00	671.40
16 Bulls	23,025.00	1,439.06
12 Unborn ETs	41,800.00	3,483.33
1,365	$1,325,425.00	$971.01

Table 2. Bulls With Two Or More Offspring Which Sold For $2,000 Or More

Bull's Name	Number
Dutch Mill Telestar Fayette	11
Maurana Wis Telestar	8
Welcome Choice Admiral	8
Co Hill Farms T H Big Tex	7
Housleys Dari Fayvor	6
Idle Neer Rondas Hornet	6
Kellogg Minnies Choice	6
Clovelly Top Hornet	5
Merit Fortune Agni	4
Western Glow Wistar Premier	4
Lone Palm Jeans Jay	3
Red Hill King Henry	3
Olympic View B Maverick	2
Olympic View Jamaica	2
Wagners TH Emory	2

Jamaicas Bonnet was purchased by Randall Cloe of Berry, Kentucky for $4,200. This Olympic View Jamaica daughter sold due to FLF Telestar Ethel Elvis in August and came from a 90-point dam with lactations to 16,580M. Myles S. Mungle of Atoka, Oklahoma was listed as the seller.

Sires Behind Top Sellers

Another genetic advancement for the breed! Fayette replaced his sire Telestar for the most number of offspring selling for $2,000 or more in 1986. Among Fayette's 11 progeny exceeding this goal was the high-selling male at the National Convention and Heifer Sales that brought $12,000. A total of 70 head sired by Fayette sold this last year for an average price of $1,350.64.

Tied for second with eight offspring commanding $2,000 or more were Telestar and Welcome Choice Admiral.The older sire averaged $1,305.14 on 72 head sold while WGS-proven sire, Admiral appeared on the top side of 40 consignment's pedigrees. His offspring averaged $1,444.25.

Co Hill Farms T H Big Tex checked in with seven offspring at or beyond the $2,000 mark. His top seller, Sunnydell BT Misty was purchased for $5,100 in the National Showcase Sale. An average of $1,348.15 was received for the 46 head by Big Tex that were auctioned off during 1986.

Veteran AI-sire Clovelly Top Hornet emerged at the top among bulls with 10 or more offspring sold at public auction during 1986 whose average price exceeded $1,100. A total of 15 Top Hornet offspring sold for an average price of $1,793.33 while 33 percent of these individuals received final bids of more than $2,500.

Table 3. Sales Averaging More Than $1,100 in 1986.

Sale	No. Head	Gross	Average
Olympic View Invitational Sale	30	$ 91,650.00	$ 3,055.00
North American Showcase Sale	29	79,700.00	2,750.69
National Convention Sales	58	148,350.00	2,557.76
World Premiere Sale	7	11,800.00	1,685.71
Bettswards Farm Dispersal	45	69,250.00	1,538.89
Wisconsin Spring Sale	32	44,625.00	1,394.53
Walnut Corner Dispersal	33	43,100.00	1,306.06
Fauver Hill Reduction Sale	89	112,425.00	1,263.20
Minnesota State Guernsey Sale	28	33,825.00	1,208.36

Table 4. Bulls With 10 Or More Offspring Sold At Public Auction During 1986 Whose Average Price Exceeded $1,100.

Sire	No. Head	Average
Clovelly Top Hornet	15	$1,793.33
Merit Fortune Agni	14	1,730.36
Idle Neer Rondas Hornet	43	1,587.79
Housleys Dari Fayvor	21	1,576.90
Red Hill King Henry	10	1,572.50
Welcome Choice Admiral	40	1,444.25
Dutch Mill Telestars Fayette	70	1,350.64
Co Hill Farms T H Big Tex	46	1,348.15
Maurana Wis Telestar	71	1,305.14
Lyrene Wistar Deacon	15	1,248.00
Lone Palm Jeans Jay	14	1,210.71
Kellogg Minnies Choice	79	1,117.34

The popular high-solids sire, Merit Fortune Agni, made a grand debut with 14 progeny commanding an average price of $1,730.36. Four of his unborn ETs were purchased for at least $3,000 during 1986.

Red Hill King Henry enjoyed some popularity in the sale ring also. Ten of his descendents averaged $1,572.50, three of which sold for more than $2,000.

Choice maintained his battery of high-selling offspring.Five sold at the $2,000 or more mark and all 79 progeny that exchanged ownerships averaged $1,117.34.

The Best Sales

Following tradition, the west coast again featured the highest-averaging sale for the year. The Olympic View Invitational featured 30 head that grossed $91,650, making the average $3,055. Hosted by Olympic View Farm in Lynden, Washington, which is owned by the Mike Lancaster family, this sale featured not only the highest selling animal of the year, but numerous high selling ETs and heifers.

The North American Showcase Sale held in November brought in $80,975 on 29 consignments for a mean of $2,792.24. The Guernsey Marketing Service of Columbus, Ohio managed this sale. The next highest-averaging sale, the National Convention and Heifer Sales managed by the Illinois GBA, averaged $2,557.76 on 58 individuals.

Bettwards Farm Dispersal held in Richland Center, Wisconsin featured 45 Guernseys that sold for an average price of $1,538.89, to make it the highest dispersal of the year. The Auction Specialists of Lancaster, Wisconsin managed this auction.

The Walnut Corner Farm Dispersal, held at the Indiana State Fairgrounds in Indianapolis, commanded a high average of $1,306.06 on 33 head. Herd owners Robert, Ray, Kay and Travis Smith Lindsey of Bismarck, Illinois managed the sale and received assistance from the Guernsey Marketing Service (GMS) from Columbus, Ohio.

In summary, 1,365 Guernseys crossed the auction block in 1986 for an average figure of $971.01. Of those individuals that were marketed, 43 percent were cows, 25 percent were bred heifers and 29 percent represented open heifers.

A list of those animals selling for $3,000 or more during 1986 follows.

Yellow Creek Tel Bouquet (7-82) $17,000
S: Maurana Wis Telestar; B: George Will, Rogers, MN; C: Truman Weaver, Goshen IN; Olympic View Sale, Lynden, WA.

Arrow Head TF Linkon (4-85) (Male) $12,000
S: Dutch Mill Telestars Fayette; B: Tri-State Breeders Cooperative & Arrow Head TF Linkon Syndicate, Westby, WI; C: Karla Halbert, Union, MO; National Convention and Heifer Sales, Peoria, IL.

Sales

Lyon Farms Complete Dispersal

Nearly 100 head of Guernseys brought an average price of $973.69 at the Lyon Farms Complete Dispersal on March 14, 1987 in New Haven, Missouri. This Guernsey operation is owned by Marvin and Mike Sprick and families. Among the group, 43 milking-age females sold, averaging $1,225.58.

Two correct cows tied for the high-selling price of the day at $2,700. Lyon Farms Tex Trudy, an 88-point Co Hill Farms TH Big Tex daughter with 534 pounds of butterfat as a junior two-year-old, sold to Travis Smith Lindsey of Bismarck, Illinois. She was out of a Housleys Dari Fayvor dam while the grandam was VG-83 with lifetime totals over 170,000M 8,950F.

Clark Vilter of Hartland, Wisconsin bid last on the other cow that commanded $2,700. Due in June to Dutch Mill Telestars Fayette, this Big Tex daughter was appraised 87 points. Lyon Farms T Irene has January 1987 indexes of +607M +17F +$61 +$45CY, CIT 2.3, CPI +133 while her Modified Contemporary Deviation (MCD) is +4,508M +146F +98P. The next generation features an 88-point Fauver Hill Wis Domino daughter with three lactations over 600 pounds of butterfat.

The sale was managed by Guernsey Marketing Service with Merv Leffler of Marion, Indiana crying the sale and Erick Metzger of Columbus, Ohio reading pedigrees. Les Peckham of Fort Atkinson, Wisconsin, Bob Griggs of Seminole, Oklahoma and Kevin Frankenbach of Hannibal, Missouri received bids at ringside.

Kentucky National Show And Sale

Another successful Kentucky Show and Sale was held April 3 and 4 at the Kentucky State Fair and Exposition Center in Louisville. The 32 Guernseys that paraded the showring and auction arena averaged $1,062.50.

The junior champion of the Kentucky National Show on Friday returned to the sale ring Saturday to receive the highest final bid at $4,100. An intermediate heifer calf, she was sired by Dutch Mill Telestars Fayette and out of the famed Wal Jean Alicia. This 91-point Housleys Dari Fayvor daughter has lactations to 22,140M and 1,006F with lifetime totals to date of more than 100,000M and 4,570F. The grandam produced 781 pounds of butterfat. Travis Smith Lindsey of Bismarck, Illinois purchased this fancy calf from Bryan Keith Wolfe of Rome, Ohio.

The gavel went down at $2,100 for Michael L. Capdeboscq's three-year-old consignment from Amite, Louisiana. James M. Oechsle of Convoy, Ohio bought Golden Cap Prancer Loraine (VG-85) who made 13,520M 619F in 305 days as a junior two-year-old cow. Fathered by a Lyrene Wistar Deacon son, she is backed by an 85-point Kellogg Minnies Choice dam while the next dam is 83 points with lactations to 601F. With a Cow Performance Index of +108, she sold due in May to Golden Cap Ron Duke, an Idle Neer Rondas Hornet son.

A Rozelyn D M Ernies Able junior yearling from Florida brought $1,900 for her owner Marmarada Farm Inc. of Jacksonville. Marmarada Able Paulette boasted pedigree indexes of +595M +24F +871 +$68CY, CPI +135 and was out of a Maurana Wis Telestar dam with 2-0 303D 14,150M 4.0% 572F. Spring Walk Farm of Big Prairie, Ohio now owns this correct heifer.

Dana Stewart of Princeville, Illinois consigned Greystone TS Pamela, a three-year-old Maurana Wis Telestar daughter that claimed the show's grand champion banner. Judge Ray Spann from Jackson, Tennessee made William McGee's three-year-old cow, Mactoc T Hornet Sophia, reserve grand champion of the show. These animals sold for $1,100 and $900, respectively. Jamaro Rons Patter, consigned by James Oechsle, was selected reserve junior champion. Guernsey Marketing Service managed this sale, with Auctioneer Scott VanderKolk of Dorr, Michigan and pedigree reader Erick Metzger in the box. The auction was sponsored by the Kentucky Department of Agriculture, David E. Boswell, commissioner and the Kentucky GBA. Michael Sprick, GMS marketing director; Ed Wright of Saginaw, Michigan; Audrey Wagner of Marissa, Illinois and Barney Hornback of Elizabethtown, Kentucky worked the ringside.

Maple Lane Fayette - $4,100, top of KY National Sale. (L-R) Kay Lanham, Brian Hornback and Ray Spann.

The animals selling for $1,300 or more and a complete sale summary follow.

Pacific Northwest Guernsey Youth Sale

The Pacific Northwest Guernsey Youth Sale was held Saturday, March 28 in Lynden, Washington following Friday evening's Northwest Guernsey Youth Banquet and Queen Contest. Sixteen heifers sold for an average price of $464.

Two individuals tied for the high price of the day at $650. Kevin Mallery of Enumclaw, Washington bought September heifer calf Len Acres Invest Jana. Sired by Land Of Living WCA Invest ET son, she was out of a Clovelly Top Hornet granddaughter with 2-06 123D 5,560M 4.4% 242F RIP. She was consigned by Byron and Dennis Lenssen of Lynden.

Also commanding $650 was Win Crest Volt Nanny from Wincrest Farm in Mabton, Washington. Debbie Wilson of Yelm, Washington took home this Win Crest Vels Big Volt daughter. She is out of a Very Good dam with lactations to 724 pounds of butterfat.

Far West Farms Inc. of Bow, Washington donated the monies from their sale consignment, Far West Fayette Loretta, to the Pacific Northwest Youth Fund. This Fayette daughter, out of an 84-point dam with 15,570M 809F, sold for $500 to Chris White of Matsqui, British Columbia.

Ted Vander Mey of Sumas, Washington cried the sale and Jay Lancaster of Ferndale, Washington read pedigrees. The sale committee included Jay Lancaster, Bud Lenssen, Dave Brown and Don Van Mersbergen all of Lynden. Consignments were lead through the ring by Junior Members Aaron and Ryan Lancaster of Ferndale, and David and Dwayne Lenssen of Lynden. Pacific Northwest Guernsey Queen Janelle Sagar of Tillamook, Oregon passed sale slips while Francis Hertel of Cornelius, Oregon clerked the sale.

A complete sale summary follows.

EMRL Farm Complete Dispersal

On Saturday, May 2, 79 registered Guernseys sold as part of the EMRL Complete Dispersal Sale for an average of $951.52. This herd, operated by John and Keith Egbert, was sold at the farm in Bow, Washington.

Myron Lancaster of Lynden, Washington purchased Olympic View T H Della, who commanded the sale's highest price for the day. This 91-point Clovelly Top Hornet daughter boasted three lactations over 700 pounds of butterfat and sold bred to Renwind Admiral Holiday. Her January cow indexes were +282M +$35 +$25CY, CIT +2.3, giving her a Cow Performance Index of +89. Sired by Olympic View A Banner, her VG-88 dam made 17,290M 936F while the second dam had records to 22,660 pounds of milk and 1,156 pounds of butterfat and was appraised 92 points.

EMRL KA Iris, an 85-point Shadylawn King Arthur three-year-old became the second highest selling individual at $2,200. William Askew from Hilmar, California placed the last bid on this dry cow that produced 613 pounds of butterfat in her first lactation. Her Welcome Choice Admiral dam has completed lactations to 22,110M 1,073F with lifetime totals to date over 110,000M 5,600F. The grandam was also Very Good. She sold due within two weeks of the sale to Idle Neer Rondas Hornet.

Due in November to Lone Palm M Generator and also capturing a final bid of $2,150 was EMRL P Trouble. Wil-Rene Farm from Forest Grove, Oregon bought this 84-point Kellogg E Choice Pender daughter that was projected to 19,150M 827F. She was out of a sired by Boulder View Top Demand daughter.

The largest volume buyer of the day was Dennis Lenssen of Lynden who purchased nine head for a total of $9,500. Dewaard's Dairy, also of Lynden, picked up six head at the sale.

Guernsey Marketing Service (GMS) managed the sale with Doug Wilson of Shawano, Wisconsin serving as the auctioneer. Erick Metzger read pedigrees while Jay Lancaster of Ferndale, Washington, Mark Van Mersbergen from Lynden, Washington, Leslie Peckham of Fort Atkinson, Wisconsin and Michael Sprick, GMS marketing director, worked the ringside.

Following are a list of animals selling for $1,300 or more and a complete sale summary.

"Choosing The Software That's Right For Your Farm"

The first comprehensive guide for choosing agricultural software is now available from Farm Management Systems of New Lenox, Illinois. "Choosing the Software That's Right for Your Farm" is a free publication that takes the reader step-by-step through all of the "how to's" involved in purchasing farm computer software as well as hardware.

The booklet simplifies the complicated, time-consuming process of evaluating software by helping the farmer assess his exact needs. A comprehensive checklist outlines almost every software function and feature available on the market today and gives the reader a method of deciding which ones are needed in his farm operation. There are also extensive checklists for selecting and pricing computer hardware.

A major section of the booklet provides tips on selecting a vendor and analyzing software demonstrations. FMS recommends that the potential buyer insist on running his own data during the software demo and the booklet suggests the best types of records for this purpose. A detailed discussion of every step of the demonstration is included, with recommendations for the specific tasks the farmer should require the computer to perform. For every step, there's a description of how a good system should perform these tasks and how the farmer should evaluate what he sees in the demo.

The booklet is written so that even those who have never used a computer can easily understand the process of selecting farm software. The booklet begins with information on how and when to make the decision to computerize the farm operation. There is also a section with definitions of all the terminology involved in shopping for hardware and software.

Ohio State Meeting

Ohio Guernsey breeders met in Mansfield on March 20-21 for their annual convention. Friday evening festivities were monitored by Master of Ceremonies Ralph Turley of Mansfield.

Ron Eberhard discussed the history of the Ohio GBA and presented a slide show of popular quotes. Nearly 30 former Ohio Guernsey queens attended this banquet which recognized past queens. Entertainment for the evening came from the barbershop quartet consisting of Bonnie Ayars of Mechanicsburg, Blaine Crosser from Marysville, Lee Kohler of Baltimore and Chris Yost from London.

Roger Hunker of Tiffin was presented the N. H. Hill award for being the outstanding youth. The award candidates to represent Ohio in national competition were named as Sheri Kohler of Canal Winchester, Guernsey queen candidate; Gregory Hardesty of Wapakoneta, outstanding Guernsey young farmer; and Roger Hunker, outstanding Guernsey youth. Charlotte Wachtel of Big Prairie was crowned the 1987 Ohio Guernsey Queen.

Lee Kohler was recognized as having the high herd for milk, butterfat and protein. His rolling herd average on 56 cows was 16,295M 763F 573P. The 1986 Award of Excellence for high milk production went to Marodore Big T Donna with 23,750 pounds of milk while Raemelton Fayvors Mamie made 1,076 pounds of fat to capture the high fat award. She is owned by Raemelton Farm Dairy of Mansfield. From Spring Walk Farm, Mitchells Choice Faye produce 764P to win the high protein plaque.

Spring Walk Tuffys Nina, owned by Spring Walk Farm in Big Prairie, was the highest-producing cow of the 1986 district show champions with 2-7 305D 19,730M 791F 633P.

On Saturday morning, Ohio GBA director-at-large Ted Renner from Dalton, presided over the annual meeting in place of President Ollie Riegel of Amanda who was absent due to illness.

AGCC Director Ralph Turley reported on national programs.

Arlene Crosser, AGCC office manager, updated the group on the computer status at the Columbus office while Executive Assistant Erick Metzger discussed

Twenty-seven former Ohio Guernsey Queens return for this year's meeting.

Guernsey Marketing Service sales to date this year.

The standing committee reports started with Zada Crosser from Hanoverton giving the audit information. Tom Derr of Carey covered the state futurity program and Blaine Crosser summarized the overall Ohio sale program. Bonnie Ayars updated the association on the communications committee's activities while John Richardson reviewed the progress of Lake Central Guernsey Sires. Sheri Kohler covered state youth activities. Gene Phillips presented the nominating committee report. The new directors elected were Janet Bates of Southington, Richard Showalter of Convoy, Don Barger of Urbana, Kenton Sherman of Bellevue, Lester Settlage of New Knoxville and Richard Parker from Hilliard. The state officers for 1987 are Floyd Wachtel of Big Prairie, president; Ted Renner, first vice president; Richard Showalter, second vice president; Janet Bates of Southington, secretary-treasurer and Martha Turley of Mansfield, executive-secretary.

Spring Walk TF Ellen $2,100 top of the Ohio Sale - Charlotte Wachtel; Gary Fisher, buyer; Kurt, Bev and Bill Wachtel consignors.

Ohio Show And Sale

Spring Walk TF Ellen commanded $2,100, to top the Ohio Show and Sale that was held Saturday March 21 in Mansfield, Ohio. This event was held in conjunction with the Ohio GBA annual meeting. (See complete meeting details on page 24.)

The high-seller was a correct heifer that had been named grand champion of the morning's show by Judge Harold Kaeser of Columbus, Ohio. Spring Walk Farm of Big Prairie consigned this Dutch Mill Telestars Fayette daughter. She is out a VG-84 Kellogg Minnies Choice dam with 3-3 349D 16,550M 5.2% 860F 3.7% 619P while the next dam is also Very Good with two records over 700 pounds of butterfat. Gary Fisher of Portersville, Pennsylvania purchased this full-aged senior calf.

Another Fayette daughter, Klingendale Fayette Tender, sold for $1,525, the second highest price of the day. Troy Cameron of Hilliard bought this September calf from David Klingensmith of Leavittsburg. Her 85-point Falcons Wistar Patrician dam boasted records to 18,620 pounds of milk and 734 pounds of butterfat. The Excellent grandam produced over 102,000M 4,490F lifetime.

The show and sale featured 33 consignments that sold for an average price of $580. Jim Carnaham of Racine, Ohio auctioned this group while Ted Renner of Dalton read pedigrees. AGCC Director Ralph Turley of Mansfield and Blaine Crosser from Marysville took bids at ringside.

This show and sale was sponsored by the Ohio GBA and the Ohio Department of Agriculture, Steven D. Maurer, director. A complete sale summary of this sale and list of animals selling for $1,300 or more follow.

SUMMARY

No.	Head	Total	Average
10	Cows	$ 4,600.00	$ 460.00
4	Bred Heifers	2,625.06	656.25
19	Open Heifers	11,915.00	627.10
33		$ 19,140.00	$ 580.00

Ohio Show and Sale, March 21, 1987, Richland County Fairgrounds, Mansfield, Ohio.

Gary Fisher, Portersville, PA
Spring Walk TF Ellen (9-86)..... $2,100

(Klingendale Farm, Leavittsburg, OH)

Congratulations

DAVID F. ERF
Graduated June 13, 1987 with a Bachelor of Science degree in Agriculture from The Ohio State University. He majored in Dairy Science and was a Top 10 Senior in the Agriculture School.

His college activities included Alpha Zeta Fraternity, Phalanx and the Buckeye Dairy Club. David was also a member of the Ohio State Dairy Judging Team which was high team at the 1986 World Expo in Madison, Wisconsin. David placed second individually. At the 1986 West Expo in Fresno, California he was high individual overall and first in oral reasons. His honors include the 1982 N. H. Hill Award, National Alpha Zeta Scholarship 1986-1987 and recipient of the Kildee Scholarship. While in school he served as an intern at both Select Sires and NOBA, Inc.

The AGCC Herd Register Department does provide rush service. The cost is $10 more per registration application and $5 more per transfer application. Certificates will be mailed within 10 working days of work received.

GUERNSEY DIRECTORY

1987-1988

Thanks to the 540 people and businesses listed in this first Guernsey Directory. Your support made this all possible. A special thank you goes to Leslie Peckham of Wisconsin and Martha Turley from Ohio who made several phone calls to obtain additional listings. We also extend our appreciation to *Jersey Journal* Editor Cherie Lei Bayer for her guidance with this project.

TPE - Total Performance Evaluation Program

The 1987-1988 Guernsey Directory was published to provide names, addresses, phone numbers and general location of people involved in the Guernsey breed. For the reader's convenience, owner's names with farm names are indexed in the back. Keep this directory by the phone so you can easily find the addresses and phone numbers of your friends in the Guernsey fraternity.

As A Breeder of Registered Guernseys . . .

You have the opportunity to retail cattle as well as wholesale milk. Some breeders now sell cattle in value equal to their milk checks. Although times are looking tough for the dairy industry, the market for good Guernsey cattle is expanding and will continue to expand.

How can YOU capitalize on this expanding market? Consider using these breed programs that can create additional interest in your good cows.

TPE—The AGCC's Total Performance Evaluation program includes DHIR testing, with both 305-day and 365-day records recognized; appraisal every seven to 10 months; free sire summaries; complete cow index reports every six months; and discounts on other AGCC programs. In private-treaty sales and at public auction, Guernseys that are on official test and that have been officially appraised are worth more than unscored animals not on test. And, early payment of TPE fees can qualify for a 10 percent discount.

PEDIGREES—Top individuals with attractive pedigrees have the greatest value in today's marketplace. Official AGCC pedigrees document parentage, DHIR and DHI production, appraisal scores, indexes, Modified Contemporary Deviations, and include data on the entire maternal family for three generations. A breeding and merchandising tool, pedigrees can be ordered in volume to receive special discounts.

ADVERTISING—The *Guernsey Breeders' Journal* offers an opportunity to reach a large number of Guernsey enthusiasts at a reasonable cost. Don't wait until your first sale consignment or herd dispersal to tell others about the good individuals in your herd. If retailing Guernseys is your goal, a regular advertising program could be one of the best business investments that your farm makes.

INDEX

Use this index to find the farm name and state when you know only the owner's name. This index was compiled using the first name which appears in the listing. It is therefore not a complete listing of all people who are included in the Directory, but rather a handy reference to help you find the farm you are looking for.

Abrahamson, David, MN

Indiana State Meeting

The 56th annual meeting of the Indiana Guernsey Breeders' Association Inc. was held March 14. Vice President Truman Weaver of Goshen called the meeting to order and welcomed 60 Guernsey enthusiasts to the Goshen area.

Following the approval of the minutes of the previous meeting, the financial report was presented by Robert Baker of Middletown. The Indiana GBA presented a contribution of equity revenue to AGCC Secretary-Treasurer J. F. Cavanaugh for the AGCC equity fund. This $1,266.02 will be used to promote and develop milk markets that will benefit Guernsey breeders with component or end-product pricing.

The group took action to extend an invitation to host the 1989 or 1990 annual meeting of the American Guernsey Cattle Club.

Production awards were presented by Executive Secretary-Treasurer Wendy Metzger of Silver Lake, Indiana. The award for the highest production for an individual cow was presented to the Truman Weaver family of Goshen for Yellow Creek Noble Marg with 7-01 305D 2X 23,536M 1,023F 774P. Yellow Creek Farm also garnered the award for the highest herd production with 15,381M 751F and 537P on 57 cows. Nine other farms were recognized for having herd averages of over 12,500 pounds of milk. Lifetime production awards for cows completing over 100,000 pounds of milk lifetime were presented to Valley Set Farm of Goshen for three animals, South View Farms Inc. of South Whitley for three cows and For Lou Farms from Greenfield for two animals. A comprehensive list of Indiana Class Leaders was listed in the annual meeting program.

Ruth Sparks of Greenfield presented the report of activities of the Indiana junior Guernsey breeders. Production awards were presented to Todd Riggs of Evansville and Kari Wenger of Goshen. Junior Gold Star Breeder awards were presented to Kari Wenger and Kent Wenger both of Goshen.

The Distinguished Service Award was presented to Virgil Weaver of Goshen. The Villa Crest herd is known for its strong foundation cows, excellent type and tanbark victories.

The letters committee reported the election of Tim Haynes of Auburn and Lee Riggs of Evansville to the board of directors. Officers for 1987 are President Truman Weaver, Vice President Lee Riggs, Reporting Treasurer, Robert Baker of Middletown and Executive Secretary-Treasurer, Wendy Metzger.

Remarks were given by AGCC staff members and directors. AGCC Director Walt Frahm of Frankenmuth, Michigan stressed the importance of contribution to the equity fund and the benefits of end-product pricing. Ralph Turley, AGCC Director from Mansfield, Ohio, discussed the proposed AGCC constitution and bylaw changes. AGCC Fieldman Ed Wright urged members to participate in AGCC programs and to keep registrations current. Arlene Crosser, AGCC director of Herd Register, reported on the progress of the computer conversion and activities at the national headquarters. J. F. Cavanaugh explained the upcoming export order for Guernsey heifers to Japan.

The afternoon's entertainment was provided by Dave Noffsinger, a juggler.

Update On Guernsey Young Sire Programs

NEW YOUNG SIRE

Lake Central Guernsey Sires

Sherma Admiral Ellens Elmer-ET
Sherma Telestar Helen Ellen

Sherma Admiral Ellens Elmer ET, a bull bred by Amy Sherman of Bellevue, Ohio, is being proven through Lake Central Guernsey Sires in conjunction with American Breeders Service. Semen has recently been released on this November 18, 1985 Welcome Choice Admiral son with a January pedigree index of +602M +26F +875 +16P +$69CY, PDT +0.7, PTI +148 and genetic indexes of +729M +37F +$100 +21P +$96CY, PDT +0.8, PTI +201.

His dam, a 90-point Maurana Wis Telestar daughter, has January 1987 cow indexes of +687M +42F +$107 +26P +$114CY, CIT +0.7, CPI +223 and an MCD of +2,883M +189F +113P. She currently ranks 84 in the breed for CPI. In 348 days she completed a four year, two month record of 19,260M 4.8% 923F.

Her 85-point daughter produced 2-4 365D 17,190M 4.6% 792F 3.8% 647P. The maternal grandam made records to 15,470 pounds of milk and 803 pounds of butterfat.

Remember all great sires were young sires needing sampling once upon a time.

New England Sale

The New England Sale was held in Barton, Vermont on May 9 at the fairgrounds. Twenty quality, registered Guernseys crossed the auction block for an average price of $795.25.

Richard Merritt of Farmington, Connecticut consigned the sale-topper, a Clovelly Top Hornet daughter that was just fresh. Her 88-point Lyrene Wistar Deacon dam produced 2-10 313D 17,020M 4.6% 775F 3.4% 576P. The next dam was (EX-92) with lactations of 20,090 pounds of milk and 970 pounds of butterfat. Diane Burgess of Bradford, Vermont was listed as the new owner.

The Vermont GBA sponsored the sale while Guernsey Marketing Service (GMS) of Columbus, Ohio managed the auction. Larry Benson of New Lebanon, New York was in the box as auctioneer and Michael Sprick, GMS marketing director, read pedigrees.

A complete sale summary follows.

SUMMARY

No.	Head	Total	Average
6	Cows	$ 6,575.00	$1,095.83

Canadian Guernsey Association Annual Meeting

The annual meeting of the Canadian Guernsey Association (CGA) was held on March 11 in Truro, Nova Scotia. Approximately 50 members were present.

Allan Royce of Listowel, Ontario presented the membership with a financial report showing that the organization lost several thousand dollars last year. To overcome the debt, the following motion was made and passed. "Every member of this Association is asked to make a contribution...of $50 or more."

Memberships in the CGA rose to 238 while the number of Guernseys registered in Canada declined 70 head from one year ago to 1,833. Transfers and exports were also lower than last year.

During 1986, only three young sires were added to the Canadian Cooperative Guernsey Young Sire program. The goal for the year was five new sires. The three sires actually sampled were Ran Don Damian, Minas View Misty Herald and Ran Don Claudes Dapper. One new addition to the proven-sire lineup is Queenholm Deacons Hytime. Several bulls are also "optioned" to Canadian AI organizations. These sires include a Welcome Choice Admiral son, a Kellogg Minnies Choice son, two Dutch Mill Telestars Fayette sons and possibly a son out of Win Crest Knights Vel.

The Queenholm Farms Trophy and the Marshdene Farms Trophy for the highest lifetime milk and butterfat producer, respectively, were won by Hilltop Acres N K Jess with 194,487M 10,300F (converted from kg) in 11 lactations. She is owned by D. McKinnon and Son of Hillsburgh, Ontario. The highest herd for milk production with 14,487M (converted from kg) went to John and Larry Wigham of Chilliwack, British Columbia. The high-herd for butterfat, also from British Columbia, was B. A. Peterson's 18 cows that averaged 735F (converted from kg.). Nineteen cows were recognized for production over 9091 killograms (20,000 pounds of milk) in 365 days or less.

Frank W. Fry of Fryfield Farm in Janetville, Ontario and Allan Martin of Gold Manor Farm in Listowel, Ontario were honored as master breeders during the annual meeting. Five other Guernsey enthusiasts earned Gold Star Breeder designations.

The 1988 annual meeting will be hosted by Ontario's Eastern Counties Club.

Massachusetts State Meeting

From Janet Jordan

The annual meeting of the Massachusetts GBA was held April 25 in Hardwick. Officers elected for 1987 were President Christopher Koch of Colrain; Vice-President Joanne Goodfield from Hardwick; Second Vice-President Carrie Chickering-Sears of South Deerfield; Secretary Janet Jordan from Rutland and Treasurer Andrew Warner of Berlin.

Gordon Shortsleeves of Mansfield and Warren Jordan from Rutland were both reelected for three-year terms on the board of directors.

The state show is scheduled for August 12 at the Franklin County Fairgrounds in Greenfield with Robert Holcomb of Greene, New York serving as the judge.

Henry Waidlich, representing the Massachusetts Purebred Dairy Cattle Association and the Massachusetts Extension Service, presented production awards to Warren and Wayne Jordan, Elwyn Fowles of Southampton, and Chedco Farm from Berlin.

AGCC Director Robert Holcomb updated the group on AGCC programs.

Maryland State Meeting

On Saturday, March 28, the Maryland GBA met in Westminster. President Paul Spurrier of Union Bridge highlighted the past year's events and the Maryland association's accomplishments. With a total of 486 Guernseys on DHI or DHIR, Maryland boasts 11 TPE herds, six herds active in Mid-Atlantic Guernsey Sires, 323 animals appraised during November and December 1986 and five All-American nominees. National AGCC Director Robert Holcomb of Greene, New York reported to the membership about AGCC current events.

Maryland Guernsey Queen Nancy Powel of Union Bridge gave a slide presentation about her 1986 European dairy judging tour with the Maryland 4-H team.

Guest speaker J. F. Cavanaugh, AGCC Secretary-Treasurer, addressed the group about the future of the Guernsey breed.

Junior recordbook winners recognized were Heather Frey of Hagerstown, Marcia Summers of Frederick, Adam Messix of Chestertown and Eric Fleming of Hollywood. Ashton Frey accepted awards for Rocky Maple Reno Fancy, the high milk and butterfat producer owned by a junior member, with a record of 16,480M actual 785F mature-equivalent basis. Messixs MC Lass, owned by Adam Messix, was recognized for high junior protein production with 576P. Harry L. Frey & Sons were cited for having the highest average milk and butterfat production with 13,654M 644F on 98 cows. The notable top herd for protein production with an average of 482 pounds of protein was England Farms Inc. Eleven cows from the age of senior two-year-old to aged cow earned 15 production awards. Owners of these cows are Harry L. Frey & Sons from Hagerstown, John and William Schnebly of Clear Spring, Mt. Ararat Farm in Port Deposit, Marvin Kinsinger from Grantsville, John H. Meyers Sr. and Jr. of Worton and Clinton and Judy Pease of Leesburg, Virginia.

New officers elected for the 1987 term were President Howard Fleming of Hollywood; Vice President Richard Cook of Kennedyville; Treasurer G. Edgar Hawker of Frederick and Secretary Pam Schnebly of Clear Spring. Nine other board members were also selected.

Members reelected to the VA GBA board of directors were (L-R) Wayne Wampler of Rocky Mount, E. Cline Brubaker of Rocky Mount, James Heizer of Greenville, Jack Newbill and Daniel Brubaker.

Virginia State Meeting

The Virginia GBA held its annual meeting with 35 members and guests present on January 29 at the Hotel Roanoke in Roanoke.

Nine high-production certificates were presented with Bergey's Dairy taking the award for highest herd average at 13,970 pounds of milk and 615 pounds of butterfat. Presentations were also made to high-producing individuals in each age group from junior two-year-old to aged cow. Forest Lake Farm was awarded two of the six awards for Junior Two-Year-Old Cow FLF Galen Fruit Flandy and Senior Three-Year-Old Cow FLF Dusty Ippy Icey. Forest Lake was the only farm with multiple awards for individual cows. Other awardees were Senior Two-Year-Old Cow Ham Farm J Beans Norma, Junior Three-Year-Old Cow Bergeys Choice Ellen, Four-Year-Old Cow Shady Locust Hollirex Polly and Aged Cow Valley Dale E Greta. James Heizer received an award for high individual at the judging contest that was held at the field day.

Representing the AGCC, Sandi Stern addressed the group about changes in cattle club policies and encouraged the membership to attend the upcoming national convention in Pittsburgh, Pennsylvania on May 21-25.

The board of directors met in the morning and passed a motion to pay $10 per head to those who bring their Guernseys to the Virginia PDCA show. The proposed budget was approved at this time and it was decided that the field day would be held in mid-July.

Officers for 1987-1988 are Daniel W. Brubaker of Harrisonburg, president; Richard O. Carden of Cumberland, vice president; Jack H. Newbill, secretary and Jacqueline C. Everett of Richmond, assistant secretary.

Jensgolden Spring Consignment Sale

In the heart of Wisconsin's Indianhead Country, 33 top-quality Guernseys sold for an average price of $1,366.66 on April 11 at the Jensgolden Spring Consignment Sale. Hosted by Jensgolden Junction which is owned by the Dale Jensen family in Amery, Wisconsin, the sale is the highest averaging sale to date this year.

Canadian Ken Forster of Lynden, Ontario put his bid of $4,000 in last for the first choice of four ET pregnancies by Dutch Mill Telestars Fayette or Kenmir Nances Baker-ET and out of the famed "Trish" family. The Schwinghamer Farm Quantity dam, GR-Level Gold Quantitys Trish, has completed three lactations over 1,000 pounds of butterfat. This 93-point cow has lifetime totals to date of 105,241M 5.8% 6,148F. The 87-point grandam has four records over 920F with a top lactation of 1,026F. A maternal sister to the unborn ET is VG-86 with 21,030 pounds of milk and 1,196 pounds of butterfat. This top-seller was consigned by Lyle and Neil Jensen of Balsam Lake, Wisconsin.

In the milking-age category, Blossum Hill Jamaica Jody commanded the highest price of $2,400 for her consignor Leonard J. La Roche of Athens, Wisconsin. Dale Jensen purchased this 84-point Olympic View Jamaica daughter with a Modified Contemporary Deviation (MCD) of +3,176M +71F +63P. Just fresh in her second lactation, she had produced 13,310M and 576F as a junior two-year-old.

The gavel came down at $2,050 for a Dendels Orchard Cherie Chuck daughter just fresh with her first calf. Delbert Smith of Decorah, Iowa took home Level Gold Chucks Quotia, who was out of a VG-86 Quantity dam with two records over 800 pounds of butterfat. Her consignor was Lyle Jensen.

Also selling for $2,050 was a Bettsward Telestar Victory bred heifer consigned by Glenn E. Carlson of Grantsburg, Wisconsin. GR-El N Vu Victory Avery was due to an Admiral son and out of a high-testing Grandview Wistar Fabian dam. Her new owners are listed as Delmar and Joyce Fodness of Spirit Lake, Iowa.

The Friday evening before the sale, the Polk-Burnett and Barron County GBAs hosted a social get-together which gave guests the opportunity to view the sale cattle. The sale was managed by the Wisconsin GBA. In the box, Danny Scheafor of Richland Center cried the sale while Arnold Knight of Markesan read pedigrees. Gib Krohn of Brandon and Victor Voigt from Reedsville took bids at ringside. The Barron County Junior GBA provided lunch for salegoers.

Following is a complete sale summary and a listing of those individuals selling for a price equal to or more than the sale average.

SUMMARY

No.	Head	Total	Average
13	Cows	$ 20,325.00	$ 1,563.46
9	Bred Heifers	12,000.00	1,333.00
9	Open Heifers	8,025.00	891.66
1	Bull	750.00	750.00
1	Unborn Embryo	$ 4,000.00	$ 4,000.00
33		$ 45,100.00	$ 1,366.66

South Carolina State Meeting

By Emma Lovelace

President Perry Hamm of Newberry opened the 70th annual meeting of the South Carolina Guernsey Cattle Club on February 21 at Bucks Place in Saluda. The 70 members present approved the minutes as read by Emma Lovelace of Orangeburg.

George Fowler Sr. of Saluda introduced AGCC Secretary-Treasurer J. F. Cavanaugh who addressed the group on national affairs including the AGCC name change and the new constitution and bylaws. AGCC Information Director Diedra Johnson promoted the upcoming 1987-1988 Guernsey Directory and reviewed *Guernsey Breeders' Journal* statistics.

Minnies Choice Tippy was cited for high milk and protein production for her four-year-old record of 27,674M 978P. Todd Hipp took home the Mitchell Brothers Trophy for Royal Paulson Champion's lifetime record of 2,431D 205,834M 7,838F. Myrtledale Farm accepted the awards of highest cow index dollar value (CI$), high production by a cow under 30 months of age and high herd for milk production with an RHA of 14,921M 727F 534P on 148 cows. The Clemson University herd had the largest annual production increase with +2,570M. Rudanks Jay Arnie claimed the award for highest milk production of a cow 10 years or older with 10-5 26,288M 1,194F 930P. Marfred Farm, exhibitors of Marfred Fashion Heaven at the South Carolina State Show, went home with the junior champion female trophy.

Dr. Fred Pardue presented the honoree-of-the-year award to Robert Wickham of Lushacres Farm/Thornwell Home and School for Children in Clinton. The South Carolina Guernsey Farm Family was the Herbert Lutz family of Chester.

The following juniors were recognized by Tom Dobbins of Clemson University for their outstanding 4-H project record books: Herby D. Lutz, Charlie Kelly, Stephen Lovelace, Lee Counterman, Susie Crowder and Eva Dodds.

New board members elected for 1987 were Steve Mills, Gregg Coleman and Bruce Rushton, all of Saluda. Officers include Perry Hamm, president; Randy Mitchell of Saluda, vice president and Emma Lovelace, secretary. Hamm accepted the position of PDCA member.

While the senior organization met, the junior members gathered and discussed several items. Decisions made included selecting Julie Hamm as South Carolina Guernsey Queen to represent the state in the national contest, sending a team to the National Guernsey Quiz Bowl contest in Pittsburgh during the AGCC annual meeting and operating the refreshment stand at the state spring show.

Minnesota State Meeting

From LuElla Fuchs

Marvelous Minnesota weather brought out a large crowd of people for the annual meeting of the Minnesota Guernsey Breeders' Association on April 3-4 at the Rainbow Inn in Grand Rapids, Minnesota. Hosting this year's meeting were members of the Northeast District Association.

The board of directors and interested breeders met on the afternoon of April 3. Saturday events started with a tour of the North Central Experiment Station's Guernsey herd. Superintendent Robert Nyvall, Dr. Joe Rust and Dr. Les Hansen hosted visitors to the station. Following the farm tour, President David Anderson conducted the business meeting.

Northeast District Chairman Ken Olsen of Barnum and Grand Rapids' Chamber of Commerce representative Ernie Jacobsen welcomed breeders and guests. Debra McDermott-Johnson served as the emcee for the afternoon program. Helen Abrahamson was the afternoon's featured speaker. National Guernsey Queen Tina Larson of Claremont, Minnesota cited numerous individuals in the audience that should receive the "greatest bull" award. She also brought greetings from Leslie Peckham, AGCC fieldman. National Director Phil Tennis of Hayward, Minnesota discussed AGCC activities and announced that he was seeking reelection to the national board. Butterfield native Nels Pierson, also gave his campaign speech for this AGCC director position. Gayle Furchtenicht, assistant editor of the Guernsey Breeders' Journal, covered details in regards to the National Guernsey Directory.

This year the three senior Guernsey breeders honored by the state association included Carl and Hazel Johnson, Harold and Helen Olsen both of Barnum and Alfred and Selma Overland from Moose Lake.

1987 MN GBA Board Members: (L-R) (Back row) Kevin Vorhees, Harold Olsen, Glen Johnsen, Wes Tennis, Dean Jtrousek. (Front Row) Ben Laska, Russell Heins, Pamela Schrupp, Loren Dammann, Clarence Gustafson, Carol Kleppe.

Seven breeders were recognized for showing a 1986 parish show grand champion female including: R. J. Wirt and family of Lewiston; Jerome and Dixon Rypka from Owatonna; Neill and Bart Heitke of Mora; Bert and Gert Schwinghamer from Albany; Gerald H. Bruun of Eagle Bend; Andy Pierson from Butterfield and Gordon Barlau and family of Norwood.

The top herd for milk production with a rolling herd average of 14,343M was owned and managed by Tom Luebke of Mayer while Art Cappo of Chisholm captured first place for both butterfat and protein production with 697F and 522P. Other herds receiving production certificates were Anker Miller of Kasson, Jerome and Dixon Rypka, David and Donna Anderson from Lester Prairie, Walter Berning and sons of Albertville, Brian Honebrink of Belle Plaine, Chris Skaar and sons from Hayward, Loren Dammann from Plato, Edgar Fuchs and sons of Faribault, Dale Molnau of Cologne, Ervin Schlichting from Bertha and Gene Hanks of Winnebago.

The 1987 Outstanding Minnesota Guernsey Young Farmer was Debra McDermott-Johnson; while the Outstanding Guernsey Youth was Keith Ekstrom from Center City. The 1986 Minnesota Guernsey Princess, Dawn Enzenauer of Ellendale addressed the group. She then had the honor of crowning her younger sister Suzann as the new Minnesota Guernsey Princess.

Officers elected for the next year were President Wesley Tennis of Hayward, Vice-President Russell Heins from Eyota while Luella Fuchs, a Nerstrand native, will continue her secretary position.

Behind the Barn

Paul Hart has been named Director of Communications for Federated Genetics, which represents Atlantic Breeders' Coop, Louisiana Animal Breeders Coop and Eastern AI Coop. Hart and his wife will reside in Lancaster, Pennsylvania.

Regional Sales Manager Gary Fassett of American Breeders' Service (ABS) recently announced the appointment of **Mike Wilson** to representative supervisor. Wilson will be located in Newark, Ohio. **John Honnette** of Fresno, California has accepted the position of Regional Sire Analyst for ABS on the West Coast. He takes over for Ray Ferguson who retired recently after 35 years of service.

Select Sires has named **Wanda Aspengren** as their new Public Relations Coordinator. Aspengren is a 1986 graduate of the University of Minnesota. She replaces **Jeff Ziegler** who has moved into the position of Dairy Sire Analyst for the Guernsey and Jersey breeds. Both work at the Plain City, Ohio office.

A Wisconsin Dells native, **Don Richardson** has accepted the position of field training manager for Tri-State Breeders Cooperative of Baraboo, Wisconsin.

David and Patty Zirk of Zirkmead Guernseys in Elroy, Wisconsin, were honored by 21st Century Genetics for having the top milk producing herd among their Guernsey members for 1986. Their 54-cow RHA was 14,113M 4.3% 613F 3.7% 519P.

Two American-bred Guernseys were recently recognized in the 1986 All-Canadian competition. Reserve All-Canadian Mature Cow **Chedco Hornets Janey** was bred by C.E. Cotting of Berlin, Massachusetts and **Bettsward Hornet Angela,** bred by Uriel Dosch of Richland Center, Wisconsin, was the 1986 All-Canadian two-year-old cow.

The most recent additions to the list of Guernsey enthusiasts include **Jamison Michael,** born March 30 to Gary and Becky Vos of Newton, Iowa; **Darleen Rae,** born April 29, daughter of Alan and Barbara Mann of Abiqua Acres, Silverton, Oregon; **Robert James,** born February 26 to Jim and Jayne Massop of Athens, Wisconsin and **Stephanie Jane,** born November 19, daughter of Eugene and Beverly Federwitz, Chilton, Wisconsin. Congratulations to all of these proud parents.

B. Max Drake, formerly of Tiffin, Ohio, was honored with the Ohio Award for Agriculture Excellence at the NAMA Buckeye Chapter banquet in April. He received this honor for his service, efforts and achievements involving Ohio agriculture. He served as general manager for NOBA Inc. for 35 years.

Two Californians, **Amelio Curti** of Waukena and **Gary L. Korsmeyer** of Artesia, were named honorary members of the Cal-Poly Dairy Science Club at their recent banquet. Cal-Poly also honored three seniors as outstanding dairy science students for 1987. **Tyler Hammond** of Manteca, **Matthew Machado** of Merced and **Sean Tollenaar** of Elk Grove received recognition for their accomplishments while at Cal-Poly.

These dairymen represented Guernsey breeders at the Select Sires Guernsey Committee meeting held in Columbus in March. (L-R) Jack Dendel, Dendel's Orchards, Allegan, Michigan; Daniel Brubaker, Shenmont Farms, Harrisonburg, Virginia; Marvin VanMersbergen, Markwell Farms, Lynden, Washington; James Costello, Jimco Farm, Malone, Wisconsin and Jeff Ziegler, Select Sires' Guernsey Sire Analyst.

(L-R) Frank A. Wright and Edward T. Oleskie retire after a combined 70 years of service to the dairy industry. Both members of the Rutgers Cooperative Extension Service in New Jersey, Oleskie served on the Cooperative Interbreed Association of New Jersey. Wright was a secretary of the New Jersey Guernsey Breeders' Association.

CHOOSING SOFTWARE from page 23

The publisher, FMS, is a full service supplier of software and hardware to the agricultural industry. The company's staff includes farmers, programmers and computer analysts who have combined their expertise to develop the first practical guide for selecting farm software.

"Choosing the Software That's Right for Your Farm" is available at no charge from Farm Management System, 1208 South Cedar Road, New Lenox, Illinois 60451. The publication can also be orderd by calling FMS toll-free at 800-992-2814 (in Illinois: 800-223-4776).

Minnesota Blue Ribbon Calf Sale

Up The Creek Magics Hattie topped the 1987 edition of the Minnesota Blue Ribbon Calf Sale on March 7 after selling for $600. The Terry Fuller family of Clark, South Dakota placed the last bid on this Clearbranch Telestar Magic-ET daughter that was consigned by David L. Anderson of Lester Prairie, Minnesota. A March yearling, she was out of an 82-point Hornback Farm Prince Extra daughter with 588 pounds of butterfat. The next dam produced lactations to 16,540M 937F.

The seven open heifers selling at the Agribition Center in Hutchinson, Minnesota averaged $486.43. This calf sale annually allows 4-H and FFA members to invest in Guernseys at 10 percent discount on the purchase price.

Jim Fayhe, of Fayhe's Auction Service, cried the sale while Chris Skaar of Hayward read pedigrees. The Minnesota GBA managed this sale with Victor Klaustermeier of Lester Prairie and Wes Tennis of Hayward serving as sale committee co-chairman.

A complete sale summary follows.

SUMMARY

No. Head	Total	Average
7 Open Heifers	$ 3,405.00	$ 486.43

Minnesota Blue Ribbon Calf Sale, March 7, 1987, Agribition Center in Hutchinson, Minnesota.

One From One Leaves Two

Higgledy piggledy, my black hen,
She lays eggs for gentlemen.
Gentlemen come every day
To count what my black hen doth lay.
If perchance she lays to many,
They find my hen a pretty penny;
If perchance she fails to lay,
The gentlemen a bonus pay.

Mumbledy, pumbledy, my red cow,
She's cooperating now.
At first she didn't understand
That milk production must be planned;
She didn't understand at first
She either had to plan or burst,
But now the government reports
She's giving pints instead of quarts.

Fiddle-de-dee, my next-door neighbors,
They are giggling at their labors.
First they plant the tiny seed,
Then they water, then they weed,
Then they hoe and prune and lop,
Then they raise a record crop,
Then they laugh their sides asunder,
And plow the whole kaboodle under.

Abracadabra, thus we learn
The more you create, the less you earn.
The less you earn, the more you're given,
The less you lead, the more you're driven,
The more destroyed, the more they feed,
The more you pay, the more you need,
The more you earn, the less you keep,
And now I lay me down to sleep.
By Ogden Nash.

California State Meeting

Millbrae, California, located 20 miles south of the Golden Gate Bridge, was the site for the annual meeting of the California Guernsey Cattle Club on March 13. President Walt Kessler of Galt called the meeting to order with two dozen people present.

Dot Holtz of Santa Rosa gave the minutes of last year's meeting and the treasurer's report. Financially, the organization is very sound, with over $100,000 on account. The 1987 budget of nearly $10,000 was approved. This included helping breeders offset costs incurred for promotional efforts and awards at West Expo. Holt announced that the organization would be changing accountants in the near future.

After much discussion about donating Guernseys and/or money to an in-state junior college and/or a major university, the motion was made and passed to table all college donation proposals. The members did agree to donate up to $5,000 to the Guernsey Foundation.

The rules for the 1988 California queen contest were revised. All applicants will be designated regional princesses and shall represent Guernseys in their local area. The state pageant will be held in conjunction with the state fair. The winner will attend the 1988 national Guernsey queen contest in Seattle, Washington. Complete contest details will be in the California Guernsey Newsletter. Laurie Askew of Hilmar will chair the queen committee.

The congregation agreed to donate $2,500 to the Knight Brothers Scholarship established at Cal Poly-San Luis Obispo. Two scholarships will be presented annually from this fund.

Show Committee Chairman Robert Dias of Stevinson, presented different alternatives to potentially increase participation at the California State Fair. The original proposal outlined the possibility of a Guernsey Showmanship contest with premiums totaling $500. After much deliberation and five votes on different motions, the membership decided that the California GCC would award $10 per head for every Guernsey a junior exhibitor showed at the state fair. The other state fair proposals, including a Miss Total Performer Award, a Guernsey Sale and additional premiums for production and breeder classes, were tabled.

"If the newsletter is to survive, breeder support must increase," were the comments Dot Holtz had pertaining to the state's newsletter. Jo Jo Fulton of Los Alamos was commended for her reporting efforts.

The businees meeting closed with elections. Stan Sinclair of Ceres was reelected while Robert Dias replaced Ann Snell on the board. Officers for 1987-1988 include President Ronnie Ray of Chowchilla, Vice President Bill Askew of Hilmar, Secretary Dot Holtz and Treasurer Stan Sinclair.

Over 40 Guernsey enthusiasts from California, Idaho, New Mexico and Washington as well as AGCC Information Director Diedra Johnson from Columbus, Ohio attended the evening awards banquet. The program for the evening featured a slide presentation of a pack-mule trip

California GCC Vice President Bill Askew and President Ronnie Ray.

from Idaho to Oregon.

Senior members winning production plaques based on Fat Corrected Milk (FCM) were Laurie Askew for Cleverlands Telestar Yuppy, 2Y 32,052M; Bob Dias for Golden Meadows Telestars Nina, 3Y 32,390M and Dennis Nelson of Hilmar for Nells Glow Supreme Lorene, 4Y 31,376M; Trusil Maverick Mitzie, 5Y 27,376M and Nells Glow Hermes Karen, lifetime 215,975M.

Three junior-member awards were presented. Sharlene Bacca received two production awards based on FCM for Golden Meadows Gen Rosie, 2Y 26,239M and Golden Meadows Fabians Debbie, 3Y 19,912M. Randi Ray of Chowchilla won a scholarship provided by the state club.

The Outstanding Young Breeder Award recipient was Jo Jo Fulton, operator of Pat Mar Ranch. The Distinguished Service Award was given to Raymond Orisio of Woodburn, Oregon.

Page 74

CA MEETING from page 73

Newly elected president, Ronnie Ray, commended Walt Kessler for his two-year tenure as state president. Ray also expressed that by working together much could be accomplished.

Idaho Annual Meeting

Sixteen people attended the Idaho Guernsey Breeders' Association annual meeting held on March 16 at the Furrow Cafe in Wilder. President Dave Lincoln of Parma called the meeting to order. The minutes and treasurer's reports were given by Frances Baker of Homedale. Both were approved.

A letter from the Oregon Guernsey Breeders' Association regarding a production sale in the spring was read. Joe Pritzl of Fruitland moved to support the sale and cooperate with the Oregon GBA if there was enough interest in such a sale.

The state junior show was reviewed by Vice-President Derry Hawker from New Plymouth. Junior members Scooter LaCrone of New Plymouth and Joey Peutz of Fruitland exhibited the grand and reserve grand champion females, respectively. Jim LaCrone of New Plymouth won the Premier Breeder banner. On another show note, the 1986 Idaho Guernsey Futurity was won by Hillcrest Loyal Buffy, owned by the Hawkers. Rolly Lincoln represented Idaho at the Pacific Northwest GBA annual meeting in November and updated the Idaho members on the organization's events. The tentative schedule for the 1988 national Guernsey convention in Seattle, the calf sale in Lynden in March, and the scheduling of Wincrest III were reviewed. The annual Pacific Northwest youth tour for 1987 will take place in western Oregon. Lincoln suggested that Idaho host the event in 1989, bypassing 1988 because of national convention commitments.

President Lincoln had just returned from the Western Guernsey Sires (WGS) annual meeting held in San Francisco and relayed the pertinent facts to the group (for a complete WGS meeting report see page --). Lincoln was also elected to serve on the WGS Sire Selection Committee.

Following a lunch break, the meeting resumed with the group unanimously supporting Ken Winters of Mabton, Washington for AGCC director at-large.

Production award winners for 1986 were announced by Melvin Needs of Fruitland. Shadylawn KA Lindy and Westlynn Navaho Noel won the high milk and high butterfat certificates, respectively. Six cows were recognized as 100,000-pound producers while 12 other mature Guernseys had produced over 75,000M. Scottie Payne of Vale, Oregon made a resolution congratulating the owners of these high-producing cows. This resolution was approved.

Idaho GBA officers (L-R) Derry Hawker, David Lincoln and Frances Baker.

Dave Lincoln suggested the organization have a fund-raising project with the money donated to the Guernsey Foundation. AGCC Information Director Diedra Johnson of Columbus, Ohio described current research projects that have been funded by the Guernsey Foundation. The Idaho group appointed Andy Baker of Homedale to investigate fund-raising ideas, with some proceeds going to the Foundation.

On a national basis, Diedra Johnson informed the members that registrations for 1987 were up compared to this time last year. She discussed the computer challenges at the AGCC, explained the new constitution and bylaws that will be voted on by the AGCC active membership, and encouraged participation in the 1987-1988 Guernsey Directory.

The membership approved the motion that Dawn Nipper of Eagle should receive half of the money won at the Western Idaho Fair for her efforts with the herdsman award. The secretary also mentioned that she is looking into another savings account.

The same slate of officers were reelected for 1987-88 including President Dave Lincoln, Vice President Derry Hawker and Secretary-Treasurer Francis Baker. Serving as directors will be Ed Ankenman of New Plymouth, Melvin Needs and Andy Baker.

CONTRIBUTE TO THE BRIGHTER FUTURE OF THE DAIRY INDUSTRY

All Guernsey enthusiasts are encouraged to make a donation to the Guernsey Foundation today. More funds are needed to perpetuate the advancement of education and scientific research in the dairy industry as a whole. This donation helps the dairy community prepare for a better future. Invest in a brighter future for tomorrow's dairyman. Make a tax-deductible gift to the Guernsey Foundation (Federal ID Number 23-705-9684) of $10, $100 or $1,000. Remember, every contribution helps.

Western Guernsey Sires Meeting

"A commitment of cooperation by owners of Guernsey cattle west of the Rocky Mountains to adequately sample and prove Guernsey sires," is the Western Guernsey Sires' mission statement. This concept was reinforced at the group's annual meeting held in Millbrae, California on March 14.

President Kenneth Winters of Mabton, Washington started the meeting by welcoming the 21 people from five states. Francis Hertel, secretary-treasurer from Cornelius, Oregon, read the minutes of the last year's annual meeting. The minutes were approved. The treasurer's report showed a year-end balance of $41,500.

Olympic View Farms in Lynden, Washington; Harrold Brothers of Creswell, Oregon; Shamrock Dairy in Tuscon, Arizona and Nells Glow Guernseys in Hilmar, California were the members using the most WGS young sire semen in 1986.

The organization's national advertising program was reviewed. A motion made by Max Mickelsen of Petaluma, California, "WGS will continue their current 10-time advertising contract with the *Guernsey Breeders' Journal* and cooperate with AI organizations to publish a one-page advertisement once a young sire has been accepted into stud," was passed.

Select Sires Inc. of Plain City, Ohio requested permission to slaughter Rozelyn DM Ernies Able after obtaining 30,000 units of semen. Membership agreed to this appeal.

This year's Max Dawdy Scholarship stirred interest from six applicants in five states. Zena Edwards of Oakville, Washington received a check for $500 as the scholarship winner.

Many people made suggestions for sire selection. The criteria for selecting a possible young sire include a genetic index (GI) or pedigree index (PI) of +550M, a Modified Contemporary Deviation (MCD) on the dam of +4,000M and a minimum score on the dam of 80-points. Other factors concerning breeders were ease of milking and size of teats; lactations other than the cow's first; the use of aAa when considering a mating and matinga cow with a specific sire then putting the male offspring into WGS. A motion passed to ask breeder input for milking ease information.

Diedra Johnson, AGCC information director, was called upon to explain how the AGCC would handle the administration of WGS out of the national headquarters. Items of concern to the group included announcement of young-sire acceptance into stud through the *Guernsey Breeders' Journal*; who was getting young sire semen; the reincorporation of the organization from Oregon to Ohio; how would the bulls be selected and placed into stud and how much this service would cost. The group passed a motion to empower the WGS Executive Committee to negotiate a working relationship with the AGCC through AGCC Young Sire Administrator Erick Metzger in Washington in May. Those present also agreed that the WGS sire selection committee should consist of just three people.

Further discussion after lunch prompted the following guidelines for sire selection: GI or PI +600M; dam's MCD +4,000M; sire's repeatability 60 percent and a high cheese-yield dollar value (CI$) on the dam.

Unpaid bills for semen received by WGS members was discussed. The group agreed that members who do not pay for semen will have that amount deducted from their dividend check.

The membership was informed that Landmark Genetics has allowed American Breeders Service a lifetime lease on Lone Palm M Generator.

Director elections resulted in the addition of David Lincoln of Parma, Idaho and Mark VanMersbergen of Lynden, Washington to the board and the reelection of Walt Kessler of Hilmar, California. Serving on the sire selection committee for the next year will be Max Mickelsen, chairman; Mark VanMersbergen and David Lincoln.

The same slate of officers that will continue for another year include President Ken Winters, Vice President Henry Giacomini of Ferndale, California and Secretary-Treasurer Francis Hertel.

New York State Meeting

Heavy fog and snow did not hamper the 50 people who traveled to Jamestown, New York for the 55th annual meeting of the New York Guernsey Breeders' Cooperative Inc. on April 4. During the morning registration, the board of directors met.

The afternoon business meeting was called to order at 2:20 p.m. by President Robert Holcomb of Greene. Secretary Roland Ripley from Cortland read the minutes, followed by the treasurer's report given by Barbara Nedrow of Clifton Springs. Both were approved as read.

In his president's message, Holcomb stated that the organization once again showed a year-end profit. During the morning board meeting, several items were passed. Money will be available for a booth at the Empire Farm Days with Mary Molnar of Tully serving as chairman. The fall sale will be held on October 17 in Cortland with Guernsey Marketing Service of Columbus, Ohio managing. The New York GBC will send an invitation to host the 1989 AGCC annual meeting to the American Guernsey Cattle Club Board of Directors.

Ripley reported that 105 Guernseys showed at last year's New York State Fair in Syracuse. In 1987, the open show will be on Saturday, September 5 with the junior show on September 4. Judges will be Norman Hill and Chuck Litzinger, respectively. Ripley again will obtain awards for the show.

Following the resolutions read by Barb Nedrow, Junior Association President

Owners of high living lifetime butterfat producer in state, Mr. and Mrs. Wetherwax.

Sheryl Church of Freeville announced that another calf raffle would be sponsored by the juniors. The Ripleys will donate the calf. Also, junior members showing at the state fair junior show will receive a pen for participation. The officers elected included President Erin Martin of Gouverneur, Vice President Kimberly Meyer from Hammond and Secretary-Treasurer Dan Ripley from Cortland.

Top-producing herds recognized were 10-50 cows-William Peck of Schuylerville with 18.3 cows averaging 15,447M 758F; 50-90 cows-Richard Tooley of Granville with 83.8 cows averaging 12,994M 619F and with a herd average of 14,564M 634F on 115.8 cows, Nedrow Farms of Clifton Springs. Eleven other herds from around the state were acknowledged for having herd averages over the 12,000-pound mark.

The only living cow in New York with over 7,000 pounds of butterfat, Hillcrest

Kevin and Barb Nedrow, owners of top producing herd with over 90 cows.

FJ, leads the list of living lifetime butterfat producers. Owned by Ronald Wetherwax of Wyoming, she has 145,642M to her credit. The living cow with the most milk to date in the state is McDonalds Darlmost Posey with 162,250M. John Seager of Prattsburg is the owner of this cow.

Also from Prattsburg, Elizabeth Seager won the highest honor in the junior production contest when Greystone Deacon Patty finished her five-year-old record with 21,405M 975F. Other junior members recognized for owning multiple high-producers were Tom Ripley with eight, Catherine Littlefield of Watertown with six and Dan Ripley with four. Individuals with one cow on the production list were John Overbagh of Sherman, Tonie Cowen from Conewango Valley, Elizabeth Littlefield and Alison Littlefield both of Watertown.

Janet Harding Ruslavage from Clarion, Pennsylvania invited everyone to attend

NY MEETING from page 77

"Guernsey Heaven in '87," May 21-25 in Pittsburgh, Pennsylvania. Seminars, commercial exhibits, dinner and dancing on a riverboat cruise, farm tours, the National Convention and Heifer sales and the first Guernsey Quiz Bowl were just a few of the events that will be held in conjunction with the AGCC 110th Annual Meeting.

AGCC Director Robert Holcomb updated the state members on national events. He encouraged their support of the new constitution, bylaws and name change for the AGCC. He also reviewed the tattooing program that will save both the breeder and AGCC staff time and money. AGCC Office Manager Arlene Crosser and Information Director Diedra Johnson emphasized programs offered by the AGCC.

Kevin Nedrow, Eastern AI Guernsey Committee representative, asked for breeder input into the Eastern AI program. The organization's test-and-slaughter method, how to get semen released more quickly and how to get sires proven sooner were the main topics discussed.

On July 11 the state picnic will be held at John Calhoun's in Eagle Bridge. The directors will have a meeting at this event.

Under new business, the Capital District will host the 1988 state meeting.

Lawrence Hooker of South Dayton, state convention chairman, welcomed members and guests to the evening awards banquet. Before the meal was served, everyone joined in the singing of God Bless America. Dennis Webster, operations manager of a local radio station, emceed the event. He introduced Guest Speaker Joseph Gerace, the Coordinator of Urban/Rural Affairs in New York.

Catherine Littlefield, 1986 New York Guernsey Princess, bid adieu to her year as state princess, then crowned her successor Sheryl Church. Christopher Anderson of Kennedy was recognized as a Master Showman at the New York State Fair Junior Show. Dan Ripley and Deb Church were named the outstanding boy and girl, respectively for 1987.

Recipients of the 1987 Distinguished Service Award were Edgar and Pauline Chapman of Maple Row Stock Farm in Conewango Valley. Also honored for their many years of service to the state Guernsey association and the breed were Frank and Nikki Wiley of Victor.

At the close of the meeting it was announced that Robert Holcomb will begin his 11th term as president of the New York Guernsey Breeders' Cooperative Inc.

Outstanding New York Youth (L-R) Sheryl Church, NY Guernsey Princess; Tom Ripley and Deb Church.

New York Spring Classic

A correct, high-indexing three-year-old cow from the popular AI-proven sire Nedrow Farms Telestar Nick topped the New York Spring Classic at $5,600. Managed by Guernsey Marketing Service of Columbus, Ohio this sale, held at the Cortland Sales Pavilion in Cortland, averaged $820.73 on 41 head.

Hansenarea Nick Binny (VG-86) was projected to 15,732M 779F in 305 days and featured January indexes of +801M +39F +$108 +$102CY, CIT +2.0, and a Cow Performance Index (CPI) of +230. Ranked 66th in the breed for CPI, she was out of an 85-point Olympic View B Maverick dam with lactations to 16,300 pounds of milk and 734 pounds of butterfat. The grandam made 5-1 357D 18,500M 4.2% 779F and was appraised 85 points. Richard Hansen of Cherry Valley consigned this high-seller purchased by Mark Erdman of Chenoa, Illinois.

Tobin Doyle of Minnesota invested $1,150 in the high-selling bred heifer of the day. Due in mid-November to Merit Fortune Agni, this Top Hornet daughter was consigned by Richard H. Merritt of Merit Guernseys in Farmington, Connecticut. Out of a VG-87 Western Glow Darimost daughter with over 800 pounds of butterfat to her credit, she is backed by the high-testing 91-point "Fabulous Mamby" cow.

The New York GBC sponsored the sale with Kevin Nedrow of Clifton Springs,

SOUTH CENTRAL

DIRECTORY

Mungle's Guernseys

A Name Synonymous With Quality Cattle

We have a lot of good cows at Mungle's Guernseys. We have sold a large number of animals carrying the Mungles prefix. No individual animal will be singled out . . . or the others might get mad. Breeding quality Guernseys is our life. Because of our dedication to this philosophy, Mungle's Guernseys was named Premier Breeder at the 1986 NGS-Louisville. The surprising part was that we did not show in Louisville and still won the honor. We also bred the reserve grand champion female at this show and the dam of "Likable" (EX-95), Mungles Factor Likable. Bob Griggs and Mason are holding the banners proclaiming these feats.

If you are ever in the area, stop and say hello. We have 20 to 30 bred heifers for sale this year. They will be sold on a first come, first serve basis.

Highlights of the 1987 Oklahoma Sale

Hosted By Mungle's Guernsey Farm

ATLASTA HONEST DITTO
Top Selling Cow $2,250.
(L-R) Bob Griggs, Mr. and Mrs. Doyle Neher, Ernie Berousek, Gary Estes, (hidden) Donna Salava, Mr. and Mrs. Lee Moore.

HARMONY VOLCANO GEM
Sale Topper $2,300.
(L-R) Mason Mungle, Bob Griggs, Ernie Berousek, Dave and Linda Cochard, the Nehers, James Kennemer (on the halter), Gary Estes.

Sale Averaged $1,260 on 42 head.

Spotlighting A Top Louisiana Herd

Golden Cap Guernseys

Even though this farm family has only milked Guernseys for 12 years, they have developed some strong cow families and received national production recognition. This 154-acre operation features 135 registered Guernseys. The milking string consists of approximately 60 cows with a rolling herd average of 12,339M 552F 455P.

Bennie and Josephine Capdeboscq along with their two sons, Michael, 13 and Milton, 11, own and manage this Guernsey enterprise. Away from the farm, the Capdeboscq family enjoys showing at both the county and state levels.

Cow Family Highlights

A production highlight at Golden Cap Guernseys this last year came via Golden Cap Prince Flasha, who was named a national Milk Flow Queen. This 86-point Kellogg Minnies Choice granddaughter produced 22,760 pounds of milk and 893 pounds of butterfat in 365 days at four years, six months of age. Her Modified Contemporary Deviation (MCD) was +6,579M +251F and she wrote January indexes of +970M +30F +$102, CPI +190. Although "Flasha" has passed away, three offspring remain at the farm; a Shadylawn King Arthur son, a November Dutch Mill Telestars Fayette bull calf and a yearling daughter by Golden Cap Deacon Prancer. Flasha's sire is Golden Cap Choice Prince with a Predicted Difference (PD) of +533M +14F +$52 and a Production Type Index (PTI) of +78.

Another popular Prince daughter in the herd is Golden Cap Prince Sue (VG-85). At three years, eight months of age she made 15,230M 548F in 309 days while her latest indexes are +425M +$36, CIT +0.9, CPI +74. She has an 83-point, first-lactation daughter. Her Excellent Housleys Dari Fayvor dam completed records to 17,410 pounds of milk and 818 pounds of butterfat.

At 92 points, Kleinpeter Farms ADV Queen not only has eye appeal, she has finished two records over 18,600M and 730F. Her MCD is +3,889M +102F. Mated to Golden Cap Deacon Master, she produced an 83-point daughter that has a CPI of +107 and a second lactation of 15,800M 4.4% 690F in 305 days.

Lavon Farms Fayvor Lorna completes three generations of Very Good individuals. This 88-point Fayvor daughter boasts lactations in excess of 15,800 pounds of milk and 680 pounds of butterfat. The Very-Good dam made 6-9 328D 15,670M 4.8% 756F while the 81-point second dam produced 617F.

These individuals are only a small sample of the good cow families appearing on the scene at Golden Cap. The herd is milked in a double-four herringbone parlor and pastured on Bermuda and Rye grasses. The grain ration consists of corn, soybean meal and oats ground and mixed.

The calves are raised in a calf barn with individual pens until four months of age. At this time they are grouped by age and size for maximum growth.

Sire selection with the herd involves top AI sires and some young sires bred and developed by the Capdeboscqs.

Just north of the Gulf of Mexico, this high-quality Guernsey operation is open to visitors anytime. If you are traveling in the deep south, satisfy your golden Guernsey interest with a visit to Golden Cap Guernseys.

Missouri State Meeting

By Gary Davis

The Lewis and Clark Inn in Washington was the site for the 1987 annual meeting of the Missouri GBA on March 17. On behalf of the District V hosts, Dave Cochard of Union welcomed everyone. The meeting was called to order at 10:00 a.m. by President Johnny Wallis of Springfield. American Breeders Service Sales Representative Andy Devine opened the meeting with a presentation about the future of the dairy industry. Following this, the secretary and treasurer's reports were approved as read.

Margie and Gloria Frankenbach reported on the junior association activities and the meeting. Rilley Stewart gave a show committee report. The state sale financial report was read by Gary Davis while Kevin Frankenbach reported state sale updates.

Nelson Preusser was nominated for the Association of Missouri Dairy Organization Pioneer Leadership Award. Honorary memberships were announced for Lindsay Brayton of Butler and Henlee Holmes of Mount Vernon.

Districts I and II will host the 1988 annual meeting.

New directors elected to replace those whose terms had expired included Louis Lester of West Plains, Wayne Blades of Crane, George Bailey from Verona and Don Waterman of Williamstown. Two additional Guernsey enthusiasts, Robert Baker of Hamilton and Dan Sebough from Daisy were appointed to fulfill two unexpired terms.

Jerry Parrott addressed the meeting about current state legislation concerning solids-not-fat in milk. He urged members to contact their state representatives about this matter.

Missouri Guernsey Queen Karla Halbert of Union was introduced. She was followed by Margaret Wallis of Springfield who reported on the national shows held in Madison and Louisville.

AGCC Fieldman Les Peckham thanked all who contributed to the fund for his Eustis model "The Guernsey", purchased at Louisville. He and Mike Sprick, Guernsey Marketing Service marketing specialist, reviewed Guernsey events on the national level and encouraged participation in AGCC programs. Junior member awards were presented. District winners in the junior division included Gloria Frankenbach of Palmyra, Casey Lesmeister of Butler, Jeremy Williams of St. James, John Sims of Fair Grove and Kenlee Calvin of Mt. Vernon with Gloria Frankenbach named the state winner. Greg Frankenbach was the unanimous choice for Missouri Outstanding Guernsey Youth. District winners in the senior division were Karla Halbert and Mark Calvin. For the first year, the outstanding young farmer award was given in memory of Nelson Preusser. The winner of the Nelson Preusser Memorial Award was Lyle Schenker of Rockville.

Arrowhead Libertys Sheri, owned by Karla Halbert, earned both the milk and butterfat production awards in the junior division. Senior division awards for milk and butterfat production were presented to Rollan Stewart of Ava and Timber Ridge Guernsey Farm of Cairo, respectively. Foremost Guernsey Farm of the University of Missouri-Columbia secured the award for highest increase in milk production, while the highest increase in butterfat production certificate went to Marlee Guernseys of Mt. Vernon.

After lunch, Kevin Frankenbach spoke to the membership about the Dairybelt Guernsey Sire (DGS) program. Dave Cochard and Jennifer Davis gave away several door prizes. Liz Stewart of Princeville, Illinois entertained the group with her tales of life on a Guernsey farm. Margaret Wallis presented Gary and Judy Davis with gifts of appreciation for their service as secretary-treasurer of the Missouri GBA.

After the general meeting, the board met to elect the following officers: Johnny Wallis, president; Ray Pursley of Springfield, vice president and Margie Frankenbach, secretary-treasurer.

People honored at the Missouri GBA annual meeting included (L-R) John Sims, Gary Davis, Karla Halbert, Margie Frankenbach, Gloria Frankenbach and Greg Frankenbach.

Oklahoma Consignment Sale

One of the highest averaging Guernsey sales this year took place on May 2 at the Mungle's Guernsey Farm in Atoka, Oklahoma. The Oklahoma Consignment Sale featured 42 head selling for a mean of $1,260.71.

A summer yearling Harmony Quantity Volcano heifer recieved the highest final bid on sale day. Harmony Volcano Gem, consigned by Steven Neher of Hutchinson, Kansas sold to James R. Kennemer of Springfield, Missouri for $2,300. Backed by two generations of Very Good dams, she was from the same maternal line as Harmony Corporals Grace (EX-90) with 4-1 329D 18,460M 4.9% 879F.

Doyle Neher paid $2,250 for an Eckmans Inno Honest two-year-old cow that sold fresh and open. Her Atlasta Charlies Chance dam was backed by a Very-Good dam with 519F. Kansas natives John and Donna Salava of LeRoy were her consignors.

Lot two, a Very-Good Olympic View Prince Andy-Twin two-year-old cow sold for $2,200. Her new owners are Myron and Mark Erdman of Chenoa, Illinois. She was projected to 13,000M and 564F ME and due in September to Wagners T H Emory. The dam was 84 points with records to 15,530 pounds of milk and 641 pounds of butterfat. Junior Member Melissa Blades of Crane, Missouri consigned this young cow with a Modified Contemporary Deviation (MCD) of +2,273M +64F.

Harmony Volcano Gem $2,300. (L-R) Mason Mungle, Bob Griggs, E.R. Berousek, Dave and Linda Cochard, the Nehers, James Kennemer and Gary Estes.

Three more top individuals exceeded the $2,000 mark. This auction was sponsored by the Oklahoma GBA. A special barbecue was provided by the Mungle family, sale hosts, the evening before the sale. Gary Estes of Ozark, Missouri cried the sale and Ernie Berousek of Yukon, Oklahoma read pedigrees. At ringside were Robert Charles Griggs Jr. from Seminole, Oklahoma, Les Peckham, AGCC fieldman, and Mason Mungle. The sale committee consisted of Robert C. Griggs R. Ernie Berousek, J. Jene Mungle and Robert C. Griggs. Discounts were provided for 4-H and FFA members who invested in any consignment.

Following are a list of those animals selling for $1,300 or more and a complete sale summary.

SUMMARY

No.	Head	Total	Average
9	Cows	$15,450.00	$1,716.67

PDCA Annual Meeting

Decisive action on matters of concern to the dairy industry highlighted the 48th annual meeting of the Purebred Dairy Cattle Association Inc., (PDCA) held February 19 and 20, 1987 at the Sheraton Airport Inn, in Columbus, Ohio.

Official representatives of each of the six dairy breeds adopted the following:

A resolution recommending support of the national beef referendum check-off plan provided that the program contains an exception for cows sold for dairy purposes and an exception for calves under ten days of age.

A resolution encouraging the Secretary of Agriculture to implement a dairy diversion program or a whole herd buyout program under the provisions of the Food Security Act of 1985 in the event Commodity Credit Corporation purchases of surplus dairy products exceed five billion pounds by January 1, 1988.

A resolution recommending that the National Dairy Promotion and Research Board and the United Dairy Industry Association continue efforts to effectuate a merger of dairy product promotion and research efforts under one national board.

A feature of the meeting program was a panel discussion, moderated by *Hoard's Dairymen* editor Eugene Meyer, on the subject "Should all major dairy product promotion and research be under one merged board?" G. Joe Lyon, of Iowa and Herman Brubaker from Ohio, both members of the National Dairy Board, debated procedural steps and outlined problems to date in merger talks and negotiations.

Resolutions were also adopted commending dairy breed registry association chief executive officers James F. Cavanaugh and George W. Opperman for their leadership and support of the dairy industry and PDCA. Cavanaugh, who will retire on June 30, 1987 as Secretary-Treasurer of the American Guernsey Cattle Club, was American Jersey Cattle Club Executive-Secretary for over 30 years, served a term as PDCA Secretary-Treasurer, and has attended PDCA annual meetings for the past 41 years. Opperman, a successful dairyman, served as president of the Brown Swiss Cattle Breeders' Association and has been Secretary-Treasurer of the association since 1981. He has been a leader in the export field, and will retire as Secretary-Treasurer on December 31, 1987.

Maurice Core, Executive Secretary of the American Jersey Cattle Club, was appointed to chair an ad hoc committee, to be composed of dairy industy leaders, to develop a set of minimum uniform type traits appraisal standards.

The committee will report to the Dairy Council, an informal consortium of dairy industry leaders who are meeting to discuss matters of mutual interest and concern.

The PDCA planning committee, which consists of the dairy breed secretaries, updated its current plan in the areas of industry relationships, ethics, joint ventures, organizational/structure and national affairs. Holstein Association Chief Executive Officer Zane Akins, who serves as chairman of the committee, announced that the committee will add a new result area, communications, to the 1987 Plan.

About The Directory Cover

Located in southern Louisiana, Golden Cap Guernseys appear on this month's directory cover. This Guernsey operation is owned and managed by the Bennie Capdeboscq family of Amite. Turn to page D6 for more details on this family farm setup. Photo by Patricia Mason.

Ed Drewitz, Brown Swiss breeder from Faribult, Minnesota and Stuart Rowe, Milking Shorthorn breeder from Davis, California were re-elected PDCA president and vice-president, respectively. Brad Ellsworth of Cabool, Missouri was reappointed PDCA Secretary-Treasurer.

The PDCA Board of Directors will hold its summer board meeting during the annual meeting of the National Association of Animal Breeders, August 11-14, 1987 in Columbus, Ohio.

Facts About Dairying

The average yearly milk production per cow in 1986 in the United States was 13,357 pounds, up 2.5 percent from 1985.

Ten pounds of milk produces 1 pound of cheese and 9 pounds of whey.

Approximately 135 billion pounds of milk was sold commercially in the United States in 1986.

The National Dairy Herd Improvement Association was organized in 1965. Its purpose is to help dairy producers operate more profitably by using more efficient feeding practices, culling and other management practices.

U.S. per capita consumption of fluid milk is 214 pounds annually.

The first recorded successful embryo transplanted from donor to recipient cow was in 1952.

It takes 21 pounds of whole milk to make one pound of butter.

Recent Developments

A New Cow

MINNIES CHOICE TIPPY (EX-91)

1/87 CI: +489M +22F +$63 +$60CY, CIT +0.8, CPI +130

2-1 305D 2X 21,780M* 3.9% 856F 3.5% 772P
3-3 305D 2X 26,781M* 4.1% 1,095F 3.4% 924P
4-2 305D 2X 28,240M 4.4% 1,250F 3.5% 998P
5-4 305D 2X 30,540M 4.1% 1,250F 3.3% 1,020P

We recently purchased Minnies Choice Tippy from Eric K. Hipp of Saluda, SC. We congratulate him upon developing this multiple class leader. We have arranged to continue housing "Tippy" with the Hipp family. Her current record will be extended to 365 days. She should go over 34,000M. She is bred to Fayette and if she has a bull he will be available.

Gone But Not Forgotten

SAWAGA CHOICE PENNY (EX-90)
6-07 365D 24,740M 923F
4-08 365D 23,440M 941F
3-05 365D 23,280M* 918F
2-00 365D 19,000M 740F

We were saddened by the loss of Sagawa Choice Penny in 1986 with complications following the delivery of twins, one dead and a liver problem. She will be remembered as one of the great Guernsey cows. Her udder remained very tightly attached right to the end. Her "Penny" family will have a favorable influence for years to come.

Her Daughter

LILY LANE QUEEN PENNY (EX-90)
1/87 CI: +537M +$44, CIT +2.0, CPI +87
2-02 365D 16,900M 4.4% 750F
Her oldest daughter, Lily Lane Queen Penny, the 1986 National Futurity winner, has a Big Tex daughter, some embryos by Prince Andy and a Fayette son available. See him at John and Bonnie Ayars in Ohio where "Queen Penny" is housed.

Her second daughter, Lily Lane Tex Penny, is housed with Ray Orisio in Oregon. She is a tremendous individual and will be appraised in May. Her record to date is 1-11 290D 15,680M 615F RIP. She is bred to Agni and her Telestar daughter is due soon to Fayette.

Penny's third and fourth daughters, by Fayette and Patrician, respectively, will have calved at Dennis Nelson's in Hilmar, California by the time this is published. Lily Lane Penny Perfecto-ET, her only living son, is at 21st Century Genetics.

Two Young Bellringers

(Injury shortened record)
3-05 305D 20,900M 5.0% 1,063F

She completes four generations that have averaged over 20,000M. Housed at Raymond Orisio's farm.

LILY LANE PEGETTE (EX-90)

2-06 305D 20,830M 3.9% 803F
365D 24,050M 4.0% 953F

By Fayette. Bred to Agni. Owned jointly with Rick Sanborn of Manitou Beach, Michigan where she is housed.

We have been breeding Guernseys for over 50 years. We no longer operate our own dairy, however we do raise our heifers and place them with various breeders to be milked. We appreciate their cooperation. It offers us the opportunity to continue our pursuit of breed improvement and promotion.

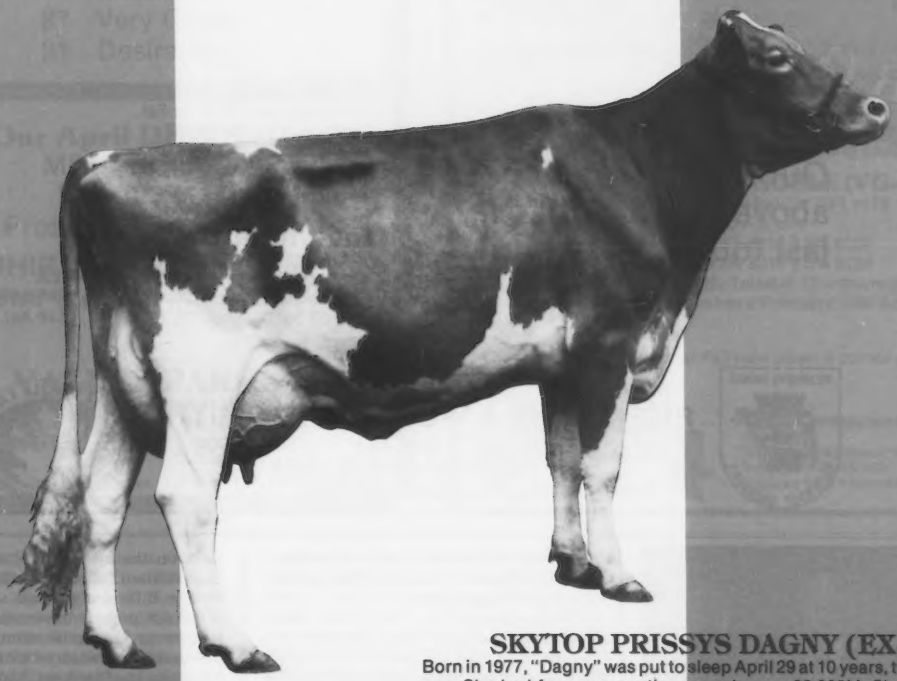
Gone But Not Forgotten



SKYTOP PRISSYS DAGNY (EX-93)

Born in 1977, "Dagny" was put to sleep April 29 at 10 years, three months of age. She had four consecutive records over 20,000M. She was the 1979 All-American Two-Year-Old Cow; grand champion 1979 PA All-American and NY State Fair. "Dagny" was also a nominee for the Great Cow Contest.

Living On Through Her Sons And Daughters

RIPLEY FARMS BANNER SKYTOP: 1/87 PD +797M +29F +$91 +$84CY, PDT +1.9, PTI +196. At ABS. Three daughters in the herd, Cotton (83) 14,610M 596F; Peggy (88) 14,490M 708F; Sundae (83); Wahini (81) making over 11,000M.

RIPLEY FARMS DEACON DAN: At Allied Genes. Five of his daughters Betty (82) proj. over 14,000M; Even (85) 14,330M 578F; Muriel (85) 14,270M 670F; Milkyway (81) 14,120M 646F; Christel (88) 14,980M 685F.

RIPLEY FARMS KELLOGG DEFEND-ET: At Landmark Genetics. His daughter Andrea (88) proj. over 14,000M.

RIPLEY FARMS KELLOGG DAILEY-ET: 1/87 PD +654M +25F +$77 +$70CY PTI +165. At Eastern AI. Misty (80) proj. 11,000M; Elegance (84) proj. 15,000M ME; Dawn — proj. over 13,000M ME.

RIPLEY FARMS DALLAS-ET: At Western Ontario Breeders. Two daughters just fresh, Marty over 45 lbs and Ellen over 52 lbs.

RIPLEY FARMS BANNER DOC: At Veguita Farms.

RIPLEY FARMS BIG TEX DELITEFUL
Nominated 1984 Jr. All-American Jr. Yearling. Due October 12.

RIPLEY FARMS BIG TEX DELITED-ET
Nominated 1985 Jr. All-American Senior Calf. Fresh March 1. Milked 46.5 lbs 5.4% first test.

"Dagny" also has an Admiral daughter fresh April 7; a Darimost son and another full brother to Skytop. "Dagny" has definitely left her mark on the Ripley Farm herd. She will be missed but we look forward to developing her offspring.

The team at the helm of the AGCC 110th annual meeting (L-R) Ruth Ann John, William Zollers, Janet Harding Ruslavage.

Pennsylvania State Meeting

"Our goal is to make the world a better place than when we found it," states Wilmer Campbell of Halifax, Pennsylvania. This was part of his president's address made at the opening of the 56th annual meeting of the Pennsylvania GBA on March 6 in Pittsburgh, Pennsylvania. After reviewing the challenges of the organization he encouraged members to establish a suitable market for the product.

Ruth Ann John, Pennsylvania GBA assistant business manager, reviewed the three sales managed by the Pennsylvania GBA that saw 175 head sell for an average price of $609.58. Business Manager Lee Yost then explained the process of selling the Guernsey Sale Pavilion in Lancaster, Pennsylvania. The building was finally sold for $950,000. The income from the investments of this money will be used to pay one full-time business manager-fieldman. Announcement of this position attracted 30 applicants.

Youth Committee Chairman Patty McMurray of Eighty-Four, informed the membership that the junior association has donated $1,000 toward expenses for the 1987 National Convention. McMurray also reviewed rules for the first national Guernsey Quiz Bowl Contest.

Next on the program was AGCC District II Director Ralph Turley from Mansfield, Ohio. He encouraged those present to support the new name of the American Guernsey Association and the revised AGCC constitution and bylaws. Turley reviewed different AGCC staff department challenges and progresses and wished the group well for a successful national convention in May.

The business meeting concluded with the election of directors. Albert Hack of Berwick, Mervin Myers from Littlestown, Elsie Wolff of Quarryville and Wilmer Campbell were elected. The rest of the evening, PA GBA members had the opportunity to tour the hotel and Station Square in preparation for the national convention two months away.

On March 7, a Mid-Atlantic Guernsey Sires (MAGS) meeting was held. Joe Ferris narrated the meeting with over 30 people in attendance. AGCC Young Sire Administrator Erick Metzger of Columbus, Ohio reviewed the current young-sire selection guidelines. Group discussion then brought up a variety of topics which were answered by Metzger.

A convention planning meeting was next on the agenda. Convention Chairman William Zollers of Mertztown explained the different options as to how individuals and/or businesses could contribute to the convention. Adult ticket prices were announced while youth event prices had not been set. And, the variety of seminars slated for the convention were reviewed.

Sherri Zollers of Mertztown gave the invocation preceding the afternoon luncheon. Guests attending included Beth Nesbit of Lancaster Farming; Dieter Krieg of Farmshine Magazine; Tim Reeves of Ohio Farm and Dairy; Ralph and Martha Turley; Center County Agent Alan Kozak; Washington County Agent David Lash; Arlene Crosser, Diedra Johnson and Erick Metzger from the national headquarters; the Kerber family, new breeders from Westmorland County and former Pennsylvania Fieldman Wade Waite. The AGCC office staff each summarized current activities in their respective departments.

Breeders receiving 1986 All-Pennsylvania plaques for animals include Scott and Elsie Wolff of Quarryville with two awards and Gary Fisher of Portersville who also received two awards, Ben and Regina Jackson and Ken Young of Columbia Crossroads, Lori Campbell of Halifax, John Marchezak of Bentleyville and Janice Garber of Willow Street.

The winners in the Junior All-Pennsylvania contest were Jennifer Sulkosky and David Guyer Jr. both from Derry and both recipients of three awards; Andrew Zollers of Mertztown with two plaques; Jennifer Yaple of Houtzdale; Francine A. Martz of

Producers For A Protein Milk Market

Dalmatia; Lori Campbell; Janice Garber and Sherri Zollers. Carosa Guernseys of Meadville won the high herd for milk trophy with 20 cows averaging 15,785M and the milk, butterfat and protein certificates for Win Crest Jack Jody. Ray and Roger Garber of Chambersburg captured the high herd for protein award with 551P on 58 cows. The high butterfat herd plaque with 725F on 60 records was given to Kenneth and Thelma Garber from Willow Street.

Junior breeder production awards were given based on 305-day, two-time records to Janice Garber for Willows Big Tex Velvet, 2Y 16,873M 850F; Beth Clark for Misty Meadows Lad Clover with 3Y 14,252M and Misty Meadow B Cecile, 3Y 645F and Jennifer Yaple for Yaples Lily, 18,423M 755F.

The state's outstanding girl and boy were Angelique McDonald of Imler and Heath Winsheimer of Indiana, respectively. The George Snyder Trophy was presented to Sabrina Wagner of Meadville for owning the grand champion female of the Pennsylvania Junior Dairy Show. Janice Garber won the Sewickley Award for having exhibited the grand champion female at the 1987 Pennsylvania Farm Show Junior Show. Concluding the junior award presentations was the announcement of the 1988 state Guernsey queen. Elaine Hill of Sandy Lake, 1986-87 Pennsylvania Guernsey Queen, thanked all those involved with her reign before crowning her successor Jennifer Yaple.

Mrs. Jean Celestine of Scenery Hill was presented with the centerpiece for her contributions to the success of the state convention. The drawing of four door prizes wrapped up the activities of the 56th annual meeting of the Pennsylvania GBA.

Following the meeting, AGCC Fieldman Les Peckham reviewed upcoming Guernsey events and awards.

Council on Dairy Cattle Breeding Meeting

Joining efforts to better serve the dairy industry was the purpose of the Council on Dairy Cattle Breeding meeting, April 22-23. Representatives from the National Association of Animal Breeders (NAAB), National Dairy Herd Improvement Association (NDHIA), Holstein Friesian Association of America (HFAA), and the Purebred Dairy Cattle Association (PDCA) met for the second time in Pittsburgh, Pennsylvania. Principal attendees were the chief elected officers and staff executives of the participating industry associations.

The Council on Dairy Cattle Breeding discusses and proposes ideas on how the organization can cooperate on programs of mutual interest and concern. The informal structure permits free exchange of ideas among the member organizations.

Dr. Frank Dickinson updated the Council on Animal Improvement Programs Laboratory (AIPL) projects. Dickinson reviewed the current status of genetic evaluations and animal improvement research.

A task force is being formed to represent the Council's support of AIPL programs. This task force will meet with USDA Agriculture Research Service (ARS) administrators in the near future.

The Council considered the procedure for sire summary release by USDA-AIPL. Currently sire summaries are released to individual bull owners prior to release to the general public. Consensus of the group was to support a proposal that AIPL release genetic evaluations to all segments of the industry at the same time.

A subcommittee to evaluate type data from various industry sources was formed. The Linear Type Subcommittee will meet in conjunction with the NAAB convention in August.

The Council discussed concerns about the lack of adequate animal identification in many herds on DHI test. It was concluded that identification would be the main topic at the fall meeting.

AGCC Executive-Secretary J. F. Cavanaugh attended this meeting representing both the AGCC and PDCA.

Just four words - use more young sires.

Michigan State Meeting

By Albert Ruhlig

On January 24, 1987, Michigan GBA President Jim Fish of Hickory Corners and 60 members of the state membership met at Smith Hall in St. Johns. The secretary and treasurer's reports were approved as read. The audit committee's report was reviewed and accepted.

AGCC Director Walter Frahm spoke to the membership about Lake Central Guernsey Sires (LCGS), commenting on the new method of using LCGS young sire semen. After using semen, report it to the AGCC for a one-dollar refund. He also updated them on the tattoo identification program and the name change of the organization from American Guernsey Cattle Club to American Guernsey Association.

Steve Kirklin was elected to the LCGS board of directors. State directors selected were Scott VanderKolk of Dorr, district I; Albert Ruhlig of Dexter, district II; Harlan Pleiness of Scottville, district III; Walter Frahm of Frankenmuth, district IV and Gordon Turner of Hemlock, director at-large.

Another item discussed during the morning business meeting was the state sale which will be held July 18 in Fowlerville.

After a potluck dinner was served, Julie Chapman and Ted Ferris of the Michigan State University Dairy Science Department opened the afternoon session with a discussion of DHIA and young sire development. A Eustis model "The Guernsey" was presented to Elton Smith of Caledonia in appreciation for his leadership contributions. AGCC Field Representative Ed Wright of Saginaw reported on AGCC happenings and programs such as the promotion of Erick Metzger to AGCC Executive Secretary-Treasurer and the Guernsey Directory. He stressed the economic advantage of registration for TPE herds.

Warren Watson reported on the model cow that was purchased for Ed and Shirley Wright at the North American Showcase Sale in Louisville, Kentucky.

State fair winners received trophies from the Wigman Fund, while Chris Thurow took home a junior award and Kathy VanderKolk was given a cap for purchasing the first 1987 membership.

Elton Smith of Caledonia brought the assembled up-to-date on the positive results and fine-tuned coordination of the National Dairy Promotion Board's efforts.

With little interest in a state picnic, the possibility of having a sale-picnic or state fair-state show picnic is to be explored. The board of directors will examine the possibilities of an official show at the Ag Expo for 1988.

The West Michigan Spring Sale was scheduled for April 11.

Hope Fryciak of Fowlerville presented youth awards to juniors members present and introduced Janice Patton as the Michigan Guernsey Queen. Mary Taylor of Port Huron will be working with the youth in the future. Following the adjourning of the meeting, Kathy VanderKolk conducted a drawing for door prizes.

The Purebred Dairy Cattle Association (effective *1-1-87*)
Show Ring Policy

The showing of registered dairy cattle is an important part of the promotion, merchandising and breeding program of many breeders. Additionally, it is an important part of the program of the various dairy breed associations to stimulate and sustain interest in breeding registered dairy cattle. This relates to both spectators and exhibitors. In this connection, the Purebred Dairy Cattle Association believes that it is in the best interests of the breeders of registered dairy cattle to maintain a reputation of integrity and to present a wholesome and progressive image of their cattle in the show ring. It recognizes that there are certain practices in the proper care and management of dairy cattle which are necessary in the course of moving dairy cattle to and between shows that are advisable to keep them in a sound, healthy condition so that they might be presented in the show ring in a natural, normal appearance and condition. Conversely, it recognizes certain practices in the cataloging, handling and presentation of cattle in the show ring which are unacceptable.

The following practices or procedures are considered unacceptable and defined as being fraudulent and/or unethical in the showing of registered dairy cattle:

(1) Misrepresenting the age and/or milk status of the animal for the class in which it is shown.
(2) Treating the animal, particularly the udder, internally or externally, with an irritant or counter-irritant, or other substance to artifically improve conformation.
(3) Surgery or insertion of foreign material under the skin, performed to change the natural contour or appearance of the animal's body, though not to preclude practices required or involved in normal management.
(4) Criticizing or interfering with the judge, show management or other exhibitors while in the show ring, or other conduct detrimental to the breed or the show.

The following practices and procedures are considered to detract from the image of the show ring when carried to excess and will be given slight to serious discrimination in placing animals within class.

(1) Setting teats
(2) Excessive manipulation of hair
(3) Use of artificial hair except for false switches
(4) Unsportsmanlike conduct on the part of showmen
(5) Improper fitting practices such as overfilling and over bagging

Practices which should be encouraged to enhance the image of the show:

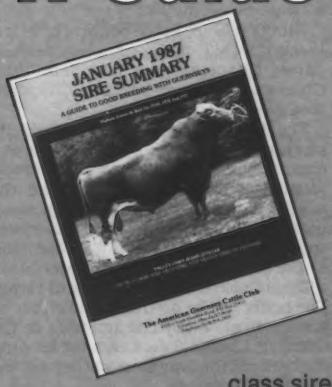
(1) Establish uniform dress code for exhibitors in the show ring.
(2) Recognize good herdmanship and exhibits in the barn.

In keeping with the basic philosophy of the PDCA, ethics are an individual responsibility of the owner of each animal shown. Violations of these policies are subject to the discipinary provisions of the appropriate dairy breed association and/or show management.

OOPS!

Due to an error of omission in the appraisal results on page 60 of the April 25 *Journal*, the results for Spring Walk Farm were incorrect. The results are 3-90's, 50-80's, 48-70's, 4-60's and 1-50.

A Guide To Good Breeding



Keep on top of breed progress by ordering the new July 1986 Guernsey sire summary with PD82 production information and new type data.

Complimentary first-class sire summaries are sent to all herds on DHIR or TPE programs.

Statistics on the breed's top active-AI sires *ONLY* are featured semi-annually in the *Guernsey Breeders' Journal*.

When you make your breeding decisions, be sure to have the most complete information available on the sires you choose. Use this handy coupon to order the new Guernsey sire summaries today!

CLIP AND SEND

To the American Guernsey Cattle Club, P.O. Box 27410, Columbus, Ohio 43227. Telephone (614) 864-2409.

YES! I want to subscribe to the Guernsey Production-Type Sire Summary. Enclosed is my check for $_____.

SATISFACTION GUARANTEED!

(L-R) Kris Chapman, Nebraska Guernsey Queen, past NE GBA President Tim Fairley and Kathy Konecky accepting her sister's junior production awards.

Nebraska State Meeting

By Judy Chapman

Guernsey breeders of the Cornhusker State met on March 21 at the Holiday Inn in Lincoln.

After President Tim Fairley of Fairbury opened the meeting, the secretary and treasurer's reports were read and approved. Fairley then read a letter from AGCC Secretary-Treasurer J. F. Cavanaugh concerning the part-time status of AGCC Fieldman Leslie Peckham.

A report on the Interbreed Dairy Council brought the membership up-to-date with the Cooper Foundation as new sponsor of the council.

The membership voted to split the showmanship contest into junior and senior divisions at the 1987 Nebraska State Fair. The judges for the state fair Guernsey shows include Gary Estes of Missouri, open show; Dr. Terry Howard of Wisconsin, 4-H show and Bernard Monson of Iowa, Ak-Sar-Ben show. A trip to the World Dairy Expo in Madison, will be awarded to the top four juniors at the state show.

President Fairley announced the possible establishment of a Phil Cole Memorial by Nebraska dairymen in honor of the former Nebraska animal husbandry department chief.

A joint district show will be held on July 24 at the Seward Fairgrounds. Tom Konecky Sr. will contact a judge. A potluck dinner will be served at 11:30 a.m. on showday.

The size of the board of directors was the next topic discussed. Those present unanimously agreed to reduce the board size from nine to six directors. The two new directors elected were Tom Konecky Jr. of Wahoo and Lea Fairley of Fairbury.

Junior production awards were presented to Judy Konecky of Beauty View Farm in Wahoo for the high butterfat record of Beauty View Fayvor Mickie. Terry Chapman of North Bend received the high milk and protein awards for Cedar Grove Choice Jan. The high herd for milk, butterfat and protein production was Drudik Dairy in Fairfield. Tom Konecky Sr. is the owner of Beauty View Superior Mabel, the high-protein producer. Goldenridges HFC Margo, owned by Tom Konecky Jr., was the butterfat and milk awardee. Beauty View Farm and Fairley Guernseys took home the lifetime production certificates.

Jim Chapman reported on the Dairybelt Guernsey Sire (DGS) program and encouraged the membership to service their high-indexing cows to the top AI-sires in the hopes of recruiting more young sires into national and regional young sire programs.

The Tom Konecky family will host the state picnic on July 12.

Officers elected at the board of directors meeting were Tom Konecky Jr., president; James Chapman, vice president; Judy Chapman, secretary and Pat Chapman, treasurer.

The Nebraska Junior GBA held its meeting in conjunction with the senior organization meeting. Newly-elected President Kris Chapman summarized the many junior activities at the adult meeting. The Leo Imig family of Seward will sponsor a trophy for the junior champion at the state fair. The junior association will purchase a calf from Richard Hayes. The heifer will be bred and sold either by private treaty or by consignment to the Cornbelt Classic Sale. Costs for keeping the heifer at the Imig farm will be paid out of the sale proceeds.

The juniors will take a trip to Adventureland in Des Moines, Iowa, funded by the junior association treasury. The juniors were encourage to replenish the treasury by selling Guernsey farm signs.

Kris Chapman reported on the national convention in Peoria, Illinois and thanked the association for making her trip possible. She will also represent Nebraska in the national Guernsey Queen contest in Pittsburgh.

Other junior officers for 1987-1988 include Vice President Bill Chapman and Secretary-Treasurer Greg Chapman.

1986-87 Joint Type Appraisal Schedule

A multiple-breed Uniform Funtional Type Traits Appraisal format involving Guernseys and Jerseys is now in effect on a regular seven- to 10-month schedule. In order to prepare preprinted worksheets all applications listing animals to be appraised must be submitted to the AGCC 30 days before an area schedule begins. Applications may be obtained from the AGCC, or submit a copy of the most recent DHI sheet showing the cows' registration numbers. TPE herds must also submit a listing of cows.

Two Of Our Newest Excellents

MITCHELLS CHOICE FAYE (EX-90)
1/87 CI: +534M +.08% +34F +$86 +18P +$87CY, CIT +0.4, CPI +172
5-10 365D 2X 22,410M 4.9% 1,090F 3.9% 885P MCD +6,880M +354F +253P. By Choice. She was the high protein cow in Ohio in 1986. She is bred to Fayette.

SHIR LON TEX PATSY (EX-90)
2-10 305D 2X 14,300M 5.3% 763F 3.4% 483F By Big Tex. Fourth, three-year-old cow, 1986 NGS-Louisville. She was just fresh, milked 104 pounds on her first test and looks as good as any cow we have owned. She will be bred to Frank.

Our Frank Daughters Are Climbing The Charts!

We now have 11 Frank daughters fresh. They average 15,900M 744F as two year olds. The five appraised average 81.6 points.

Jill: 2-01 146D 8,490M 380F RIP • 18,180M 789F ME
Glitter: 1-11 194D 9,660M 444F RIP • 16,800M 761F ME
Rebbi: 1-11 184D 9,260M 487F RIP • 17,200M 875F ME
Jackie: Just fresh and milked over 80 pounds on her first two tests.

We would like to extend a welcome to all Guernsey breeders to join us at the farm on July 12 for the Ohio Guernsey Field Day. Come and see our Frank daughters at work.

January 1987 Appraisal results: 3 90's, 50 80's, 48 70's, 4 60's, 1 50
